"A lively sense of the vocational aspect of parenthood is manifested by Mrs. Lillian M. Gilbreth in her astonishing record of a program carried out in her own family of eleven children! . . As the record of an amazing achievement the book is impressive. The lazy skepticism of a confirmed *laissez-faire* policy in family conduct cannot withhold admiration from such steadfast practical idealism—the courage, foresight and perseverance involved and taken for granted in the extraordinary feat." "The general plan by which Mrs. Gilbreth suggests 'living with our children' exacts a degree of foresight and a breadth of knowledge possessed by few people. One gains the impression that the book is rather more a report of how one family lives together, than a book of recommendations to the great mass of average families. . . The statement that 'many a family has been wrecked for lack of study,' would probably win one-hundred-per-cent agreement from people interested in the study of parental education. To such families Mrs. Gilbreth's book will give extremely valuable hope, since it makes clear the value of objective attitudes toward the behavior of both parents and children and gives many practical suggestions for achieving this attitude." GILKEY, CHARLES WHITNEY. Present-day dilemmas in religion. (Cole lectures for 1927) 180p $1.50 Cokesbury press

204 Religion 28-8828

"The half dozen chapters in this book were originally as many lectures delivered by Dr. Gilkey, who is professor in the University of Chicago Divinity School and minister of the Hyde Park Baptist Church, at Vanderbilt University under the Cole Foundation, an annual series devoted to the defense and advocacy of the Christian religion. He considers some of the more outstanding dilemmas of the present time which perplex and confuse Christian believers, both as individuals and groups, and shows how they frequently arise from a habit of thought and outlook that is too circumscribed. Broader reading, broader thinking, larger understanding, will, he thinks, usually unify our ideas, dispel our doubts and resolve our dilemmas."—N Y Times

GILKEY, JAMES GORDON. Certainty of God. 220p $1.75 Macmillan

231 God 28-21388

A liberal interpreter, the minister of the South Congregational church, Springfield, Massachusetts, considers these often asked questions: Do we really know there is a God? Is the sense of God's presence a delusion? Can we discover anything about God? Can we reconcile God's love and the world's pain? Where do we meet God in daily life? How does God speak to us? Does God have a purpose for individuals? How much will God do to help us? Can a person who has no sense of God gain one?

"The value of this book lies in the clearness with which opposing points of view are stated, in the fair liberality of conclusions reached, and in the compact citation of representative religious convictions told by men whose sincerity cannot be doubted." Gilbert Loveland

GIZYCKA, ELEANOR M. (PATTERSON) countess (MRS ELMER SCHLESINGER). Fall flight. 277p $2 Minton

28-23918

An unsophisticated American girl is transplanted to Russia when her mother becomes an ambassador's wife and moves to St Petersburg. Daisy's inexperienced charm attracts Prince Slavinsky and he ultimately marries her. The discovery that Daisy's stepfather is not settling any large sum of money on her alters the Prince's attitude toward his wife and causes an estrangement. A gradual altering and hardening of the girl's character takes place. She flees from Russia and makes her way back to America, no longer inexperienced or unsophisticated.

"The new work bears the distinguishing merit of her first book—a trick amounting to a considerable talent for delineating the human scene in swift, accurate observation and accumulation of detail. It goes several steps ahead of 'Glass Houses' in two respects—in a certain fervor of feeling and in possessing a general—though, perhaps, slight—idea which becomes the controlling theme of the drama. . . I recommend 'Fall Flight.' It is as much above the average in narrative power as it is in the interest of its material." Anne Hard

This biographical novel retells the dramatic story of John Wilkes Booth, his stage career, his romantic love affair, his ardent if perverted patriotism and its tragic result. Thruout his life runs the twisted tendril of a mistaken zeal. With bitter irony it makes of Booth the worst enemy of the country he had sworn to "save."

"The story is picturesquely told, at times a bit breathlessly, and—for this the author should be praised—with an occasional touch of melodrama which accords with the whole sentimental spirit of sixty-five. "Susan Glaspell makes use in Brook Evans of the well-worn device of three generations linked together by passionate experience. Naomi, a girl on a prairie-farm, has dared all with her lover. When he is killed, a dull, pious farmer saves the family good name, and takes her to the West, where Brook, the dead lover's child grows up. When she in her turn is wooed, by a youth obnoxious to the Puritan farmer, Naomi, frantic lest her own tragedy should be repeated, plots for her daughter's happiness. She is found out by Brook, who turns bitterly away from her mother and gives to her putative father the homage that, in her feeling, his silent protection of her mother has deserved. Naomi's heart is broken. Twenty years later, when Brook, recalling in Europe her frustrated love at eighteen, kicks over the traces, her own son stands by her, accusing but loyal."—New Statesman

"Miss Glaspell's novel has the same qualities that her other work has already shown—a deep but primitive sensibility, a capacity for groping about in the emotions of her characters till she arrives at the truth, a prevalent tone of pity for the pain that human beings inevitably inflict upon one another and a manner of expression that is adequate, even realistic, but jerky and devoid of literary beauty. It is the rawness above all, that makes it impossible to judge her work very highly by the standard of the greatest novelists: they had all that she has, with a much greater skill in using it. . . The second part of the story, though it furnishes some telling reflections on the past as seen by Brook in her maturity, is curiously unsatisfactory after the almost brutal directness of the first. It is diffused and a little sentimental, as though Miss Glaspell faltered when she left American soil."

This history of dandyism in the grand manner has for its frontispiece a portrait of the Prince of Wales as the "modern perfection of dandyism" and goes back to antiquity for early types. With the pungency of her previous novels she turns her attention to the task of debunking a traditional legend and a mythical state of living. She introduces her survey of the ways of the old South by portraying a family that had moved North after the elder daughter married a Northerner. Mrs. Glenn has adapted the stream-of-consciousness method with flexible handling, telling her novel within twenty-four hours and going back through the memory of Mrs Habersham for the detailing of her two daughters' youth in a small town on the Gulf. The interest in the past and present is enhanced by a penetrating characterization of Mrs. Habersham—an elderly woman, becoming at last aware of the vital things of life that had always been beyond recognition of what a Southern lady should know."—N Y Times

In her introduction the editor explains certain topics referred to in the letters, as Goldsmith's relations with his family, the adventure upon Fiddleback, Goldsmith's East India plan, the Threnodia Augustalis, and the production of She stoops to conquer.

"Goldsmith was much too casual a person to have written or preserved any great quantity of letters, and consequently, notwithstanding his unexcelled mastery of the familiar style of writing, there is not much correspondence for Miss Balderston to exercise her editorial competence upon. Her earlier work had shown that she knew all there is to be known about Goldsmith, and in this volume, to which the Cambridge press has given a charming form, she has gathered the somewhat meagre harvest of the letters."

They had remained buried in the files of magazines these many years, and their discovery by Professor Crane is part of the work of specialists in bringing out a new, complete edition of Goldsmith's writing. When Goldsmith collected his essays he allowed these to remain unprinted, and his biographer, Prior, in the Life of 1837, while further collecting and discovering materials first printed anonymously in the magazines, did not include these eighteen essays. . . While they are of interest to specialists in tracing his ideas and employment, they add nothing to Goldsmith's reputation."—N Y Times

GOMPERTZ, MARTIN LOUIS ALAN (GANPAT, pseud.). Magic Ladakh; an intimate picture of a land of topsy-turvy customs & great natural beauty. 291p il $6 Lippincott [21s Seeley, S.]

915.46 Ladakh

Major Gompertz, author of several books of fiction on northern India and the Himalayas writes here an interesting descriptive story of the country he has used as background for his novels. The country itself, its monasteries, its village life, the every day and holiday habits of its people are described and illustrated in "Magic Ladakh." A map in the front of the volume clarifies the location of the region described.

"Major Gompertz confesses, in an overmodest introduction, that he would not have written the book at all, except that he was anxious to publish his photographs, of which he is justifiably proud. . . Major Gompertz's pictures, though good—extremely good—are not, as a matter of fact, outstandingly better than others we have seen, brought back by returning travellers from Ladakh and Tibet. On the other hand his despised letterpress is excellent . . . quiet, well-informed, impersonal, shrewdly sympathetic towards the people it describes, and containing only a few pages that could fairly be described as 'padding.'"

\+ **New Statesman** 30:662 Mr 3 '28 520w

"The pictures are worth looking at without the letterpress, and the letterpress is worth reading without the pictures; in fact, so vivid is the author's style that the text seems to evoke the scenes he is describing almost as clearly as if they were before the reader as moving pictures. And yet it is, withal, so effortless that purple patches are conspicuously absent and the narrative flows on as easily and pleasantly as a babbling brook."

GOMPERTZ, MARTIN LOUIS ALAN (GANPAT, pseud.). Mirror of dreams; a tale of oriental mystery. 330p $2 Doubleday, Doran [7s 6d Hodder & S.]

28-23110

Tom Carruthers has dreamed of a princess in the mountain passes of northern India. With his friend Major Oxley he journeys to the place of his dream, finds his princess, a horde of smuggled treasure, a native schemer against the British Raj, and a long-lost uncle. These are all tangled threads in a very complicated story laid in the usual "Ganpat" setting of Himalayan snows.

"Lamas, shushoks, swamis, occultism, archæology and the mystery of the queer-shaped mirror, in Major Gompertz's familiar manner, yards deep in local color of Thibet. This looks like a treat for 'Ganpat' fans, however tedious it may seem to rank outsiders." Will Cuppy

Books (N Y Herald Tribune) p18 O 7 '28 80w

"'Ganpat' writes a marvelously entertaining tale. There is just enough high mystery in it, enough suggestion of amazing things which the author knows and merely hints at, enough plain-man character drawing, to make an irresistible combination."

\+ **Boston Transcript** p4 O 27 '28 320w

"The first few chapters of the novel promised much. The author in those chapters seemed to have his sense of humor actively at work. A deft ironic touch here and there seemed to indicate that he was ridiculing the convention in which he was working. But, alas, he is soon carried away by situations of his own invention and he finishes by writing a stereotyped mystery story."

GONCOURT, EDMOND LOUIS ANTOINE HUOT DE, and GONCOURT, JULES ALFRED HUOT DE. Woman of the eighteenth century; tr. by Jacques Le Clercq & Ralph Roeder. 347p il $5 Minton

396 Women in France 28-28135

This study of the woman of the eighteenth century was first published in 1862. It describes the life of the woman of fashion, the woman of the middle class, and the woman of the people; her birth, death, love and marriage; her cultural, social, and religious life. The illustrations are from contemporary prints.

"The aridity and difficulty of the Goncourts' books have been exaggerated. They wrote well, beautifully, poetically, and their work always has a plan, if not always sufficient balance and perspective. 'The Woman of the Eighteenth Century' is both a valuable reference book and a pleasant book to read, and the publishers have done the English-speaking world a service in making it at last available in English." It is immensely wordy, sugary, sentimental, and confused. Its perpetual sprightliness is unusually depressing. One feels no confidence in the authors' historical sense or in their interpretation of events. . . "The author begins with an historical survey of family life in the past and ventures far as well as instructively in her treatment of its modern aspects. Sex relations and the institution of marriage furnish the material for some of the most incisive of her chapters; in her showing of how social conditions and individualism react on the family she stresses the various factors which make for its instability, among them being modern industrialism, the woman movement, birth control, 'the rising tide of divorce,' and free love. Suggestions for remedying the situation are offered in all these fields, with special stress laid on the desirableness of changes which would prevent racial deterioration while ensuring individual and social betterment."—Boston Transcript

225 Bible. New Testament—History. Bible. New Testament—Epistles of Paul 28-7704

"The main thesis of the volume is to call attention to the influence of the collecting of Paul's letters upon the literature which immediately followed and eventually upon the structure of the various documents and the formation of the whole New Testament itself. Professor Goodspeed has noted that up to the publication of Acts, about 90 A. D., there is no evidence that the letters of Paul were generally known; the gospels do not reveal acquaintance with them; Acts itself does not; but immediately thereafter every document published shows a familiarity with them—not only individually but also as a collection. He concludes therefore that the publication of Acts made Paul famous, calling the attention of the churches generally to him as the founder of the Greek mission, and led to a demand at once for a collection of the letters which he had written incidentally to individuals and churches and which had lain comparatively unnoticed up to that time."—Christian Century

"Like Anatole France, Remy de Gourmont was a strange blend of eroticist, philosopher and esthete. Being even more frank than France in his treatment of sex, and being also rather more intellectual, very few of his works have been translated into English, and these few have been handled with a certain apologetic and suggestive furtiveness. . . . Against such a misunderstanding the two handsome volumes prepared by Mr. Aldington constitute a protest as well as a defense. GRAF, OSKAR MARIA. Prisoners all; tr. from the German by Margaret Green. 442p $4 Knopf

B or 92 28-19960

The spiritual autobiography of a young German peasant whose experiences read like a torturous fantasy. Whether as baker's boy, factory hand, or struggling writer living by his wits in the city Oskar Graf was starved in mind and body by a mean and sordid environment. His heart cried out for beauty and affection. This cry of revolt against afflicting circumstance gives the book a painful intensity and sincerity.

"His book is a valuable document on little known phases of German post-war adjustment, and the literary and artistic life of the nation during the conflict. It reveals a side from which the conventionally-minded must always shrink. The events it relates are not beautiful. But its greatness is implicit in those qualities of candor and simplicity which raise the narration of experience to the level of literature." Eugene Lohrke

The book, which has been approved by Lawrence, is a narrative of events in Arabia, and is also a critical study of Lawrence the man. It takes issue on both counts with the book by Lowell Thomas.

"Robert Graves, in his attempt to prune away the absurd romancings and ballyhoings of Mr. Lowell Thomas, has only given us other equally fantastic tales that are pretty hard to swallow. The most interesting chapter in the book, and certainly the most informative one, is that describing the events leading up to Lawrence's own exploits as set forth in 'Revolt in the Desert.'" "The episode of Lawrence's wanderings through the heart of the Turkish Empire in search of a better understanding of the Arabian situation reads like the imaginative tale of some popular romancer. Yet it is only a careful interlinear 'translation' of Lawrence's own two books. As the combination of history, biography and the research of a bibliophile it forms an amazingly human tale of a man whom its author admits rather reluctantly to be the 'most remarkable Englishman.'" "It has never been my pleasure to see that *rara avis* of collectors, 'Seven Pillars of Wisdom,' upon which Lawrence lavished two years of his life, making a perfect book, printing only a hundred copies and losing £10,000. But any reader of his popular condensation and best-seller, 'Revolt in the Desert,' had a feeling that this modest Paladin could have told far more than he did tell. As to Lawrence himself Mr. Graves is far more satisfying than was the colonel, although perhaps he is not so good on the Arabian revolt. Mr. Graves's book really is a poet's book about another poet." 28-11925

Like its predecessor, "Avarice House," this novel is a profound and extraordinarily imaginative study in morbid psychology. It is the story of a young French girl of eighteen driven to madness by the bleakness and isolation of her life. In her loneliness she has conceived an irrational and unrequited love for a perfect stranger, the middle-aged doctor who lives next door. Discovering her secret, her tyrannical father takes away her last remaining freedom and she is practically a prisoner in her wretched home. One night in an altercation with her father Adrienne accidentally pushes him down stairs. Remorse for his death added to the other morbid elements in her life completes the wreck of her mind.

GROVE, FREDERICK PHILIP. Our daily bread. 390p $2 Macmillan

28-21976

John Elliot is a hard-working Canadian farmer whose hope is to see his children grow up about him and live on in the homestead he has made. But all his hopes and ambitions meet with crushing defeat as the children marry and leave home to lead lives very different from his plans for them, and in which in his lonely old age, there is no room for John Elliot.

"John Elliot's character is strongly conceived and the diverse members of his ramified family are clearly defined, but the portrayal is not so skillful as the conception is strong. It lacks the subtle elements that make for style even in the telling of a primitive tale." C. B. Sherman

There is no relieving touch of humor or fancy, small departure in any case from dull routine, sorrow and death. Mr. Grove, without question, has drawn a grim design and adhered closely to it. GROVE, FREDERICK PHILIP. Search for [2] America; the odyssey of an immigrant. 392p $3 Carrier

A young, wealthy, and highly cultivated European faces suddenly the necessity of earning his own living. He emigrates to Canada. Untrained, his search for work is handicapped by the education and breeding which have been his assets. In all his wanderings from city to the open country, from Canada to the States, and in all his jobs as waiter, book salesman, hobo farm hand, factory worker, nursery man —he is searching for his ideal of America. The story, which is really an autobiographical novel, discloses what he found, and therein the reasons for his return to Canada.

"Unpretentious in every way, the narrative is one that holds the mind of the reader, first, because the writer had the ability to observe, and secondly, because he thought, and thought deeply, on all that he saw and on all that he experienced."

780.3 Music—Dictionaries. Musicians—Dictionaries (27-23371)

The standard encyclopedia in English has been thoroughly revised and brought up to date. Not only have new musicians been added, but many of the longer articles in the earlier edition have been replaced by new ones written by specialists of today. GROVES, ERNEST RUTHERFORD. Marriage crisis. 242p $2 (10s 6d) Longmans

173.1 Marriage 28-24799

This conservative but fair-minded discussion of the causes of the crisis thru which marriage is seen to be passing "is written with confidence in the social value of the marriage which we rightly call the present standard." Admitting the hopelessness of forcing marriage back to what it used to be under different social conditions, Professor Groves sees some practical ways of offering help to the family.

"He gives frank and courageous discussion to many vital problems. Many will doubtless disagree with Dr. Groves in his conclusions, those, for instance, who feel that he has not made sufficient allowance for the peculiarities of the pluralistic universe. But none can justly deny that he has worked up his case well and added an important document to the literature of marriage." M. L. S.

The book is clear-sighted and judicially minded in all its discussions."

Two professors of sociology have provided this text for a course of study of the status and problems of the American family. Part one is a treatment of modern marriage and family relationships—the social significance of marriage, the rôle of the husband and of the wife, family discord and family reconstruction. Part two is a statistical study of American marriage. Part three provides study suggestions and bibliographical notes and a study in correlation to be used in interpreting the statistical method employed in the preceding text.

Dr Gruening, editor of the Portland Evening News, has written in "Mexico and its heritage," a large and important work. In this series of portraits of the wives of six eminent Victorians—Jane Welsh Carlyle, Catherine Gladstone, Mary Arnold, Mary Anne Disraeli, Emily Tennyson and Emily Palmerston, Mr Guedalla almost forgets to be satirical and becomes at times even tender. At times Mr. Guedalla criticizes; but it is an undertone, the warning note of a friend. One feels that he decided to woo America like a knight seeking a strange lady in a tower; at length, finding her perched as high as the Woolworth building, and not a little indifferent to his soft appeal, he grew tired and at times a little strident. GUEST, HAROLD WALTER. Public expenditure; the present ills and the proposed remedies. 217p $1.75 Putnam

336 Finance 27-19401

Writing for the layman and the schoolman alike, the author discusses the recent enormous increase in government appropriations, and the respective attitudes of the voter and the legislator toward them; and suggests possible means of control of public expenditure in the future.

"Professor Guest's solution of the problem is charmingly naïve. Social psychology is hardly as yet a science with an established series of organized generalizations which can be drawn upon for first premises in other fields; at best it can give a few working hypotheses. An occasional side glance at social psychology will greatly enhance the value and interest of a study on economics and politics, but to attempt to make it the sole basis of such a study as Professor Guest has done is rather a puerile effort." B or 92 England, John, bp. Roman Catholic church in the United States 27-23161

"The object of this study has been to place before us the time in which John England lived, the stirring events of that epoch in history, and principally the man himself. Dr. Guilday depicts for us the life of this great bishop as a boy in Ireland, his years in the priesthood, his part in the Veto controversy, in which he was intimately associated with O'Connell and other great men of the time. We are given to follow the bishop in the many journeys which he undertook in the interests of the faith which he was commissioned to preach. Hardly any important detail is missing in the finished picture placed before us."—Am Hist R

Five studies of a German Old Testament critic are here presented in translation. "The author is undoubtedly a man of considerable erudition and of great industry. Unfortunately he seems to be a Nordomaniac. To those of us who attempt to maintain the proper scientific attitude of impartiality in racial studies it is a matter of considerable regret that discredit has been brought upon physical anthropology by writers who allow themselves to be carried away by class and race prejudice. Lieutenant Rickey, wounded in the air service in France, is sent to a reconstruction hospital in a small New York town. Known as "Tony the Wop," he is a disconcerting addition to the social life of the town until Natalie Gortion and her husband take him up. His affair with Natalie, his friendship with the sardonic Sayles and their united venture in commercial aviation, are incidents in the story which centers around the character of the "big wop from Peoria."

"Were the telling of 'Parachute' on a par with the story all would be well. "Mr. Guthrie's window on the world is romantic. In this, his second book of verse since those war days when he was invalided to the south of France and there became interested in Provencal poetry, he continues to reveal that interest, either in the translations included here or in the original poems. The troubadours call to him and he answers. He is a romantic in the sense (and sometimes the style) in which Ezra Pound is. His rhythmic prose-poem manner is, to take the words of one of his own lines 'clamorous, unreined, carousing.' "—Books (N Y Herald Tribune)

"Perhaps if I do not seem very enthusiastic it is because I realize that Ezra Pound has done all this so much better, and with far more poetic grace. At the same time, it must be confessed that outsiders, unless they are passionately interested in Free State affairs, are likely to find large stretches of the book anything but lively reading. Mr. Gwynn's eyes are fixed so intently upon Departmental reports and Dail debates that he tends to miss the subtler interplay of forces that in Ireland, perhaps more than other countries, makes all the difference in politics."

HALL, NORMAN SHANNON. Balloon buster; Frank Luke of Arizona. 191p il $2 Doubleday, Doran
B or 92 Luke, Frank 28-21927

"He was the only fighting flyer to be awarded the Congressional Medal of Honor. If he had lived he would have been court-martialed." These two lines from the publisher's note epitomize the qualities of reckless daring and disregard for orders that made the tall blond boy from Arizona at once the admiration and despair of his senior officers. Mr. Hall tells the story of Frank Luke's career as a combat flyer in France.

"In 'The Balloon Buster,' Norman S. Hall has written succinctly and intimately of the short span of achievement that was Frank Luke's life. . . It is, however, a pity that Mr. Hall has not let Luke's story tell itself. His writing is encumbered throughout with a species of sentimental bombast and conscious efforts to give color where none was needed." Dudley Lunt

HALL, RADCLYFFE. Well of loneliness; with a [2] commentary by Havelock Ellis. 506p $5 Covici [15s J. Cape]
28-30704

This serious novel on a forbidden theme has received a notoriety out of proportion to the significance of the book, from the fact that it has been the subject of sensational discussion and withdrawn from publication in England. The theme of homosexuality, not uncommon in Continental fiction, has been ruled by an English magistrate as indecent for use in fiction.

"Probably in intention, and certainly in effect, 'The Well of Loneliness' is much more of a sermon than a story, a passionate plea for the world's understanding and sympathy, as much a novel of problem and purpose as 'Uncle Tom's Cabin,' as sentimental and moralistic as the deepest-dyed of the Victorians. If its subject had happened to be the felicities of normal home-keeping hearts, its tune would have fitted it admirably for the shelves or Sunday school libraries. . . 'The Well of Loneliness' is courageous, and honest; yet undoubtedly it is warped by its obsession." Mary Ross

"It is the opinion of The Nation (1) that Radclyffe Hall's book deals in an intelligent, unsensational, and entirely proper way with the unhappy life of a woman struggling against perverse tendencies and is well worth while to call public attention to the badly misunderstood plight of many, many men and women; (2) that any attempt to declare any subject of human interest and social significance as per se undiscussable is not only to further confuse the already difficult subject of criminal obscenity, but also to promote a socially dangerous obscurantism."

"Miss Hall's subject will be considered 'unpleasant' by many people; as treated by her, it is far less unpleasant than many of the subjects of popular novels. . . Her characters are interesting, carefully constructed, and individualized. And yet disconcertingly they hardly seem to be persons. They appear to be the creations of the intellect, and for the reader they have no emotional content. The consequence is that one does not feel the emotions appropriate to their tragedy or comedy." "The Well of Loneliness is a melodramatic description of a subject which has nothing melodramatic about it. What literary interest it has, and it might have a great deal, is obscured by the constant stream of propaganda of every kind, and the author's perpetual insistence that the invert is a great tragic figure, branded with the mark of Cain, set apart from her kind as the victim of the injustice of God and the persecution of the world. It may be a brave book to have written, but let us hope it will pave the way for someone to write a better." Cyril Connolly

942.08 Great Britain—Colonies. Great Britain—History—20th century. Great Britain—Constitutional history 28-5035

This account of thirty years of British imperial history appraises those forces within the Empire which make for closer union. Constitutional history is therefore stressed. Two-thirds of the book is devoted to the self-governing dominions.

"To write a history of the British Empire since 1897 is a task of no small proportions; to see it done in a style at once readable, vigorous, and comprehensive is most gratifying. This book successfully demonstrates that good history need not be dry and formal in its presentation, and wherever it is read it will certainly excite interest and provoke discussion." W. R. The original of this story was published in England in 1922, under the title "Theodore Savage." In a new and amended form and under a different title it now appears in America for the first time. HAMILTON, COSMO. Three passions. 328p $2 Putnam [7s 6d Hurst & B.]

28-23046

Blossey, Lady Victoria Burlington, monopolizes every moment of Philip's last days in London, driving him relentlessly from one hectic pleasure to the next. He returns to Oxford in a mood of violent reaction: reaction against Blossey and all her works; against the neurotic whimsys of his mother; and against his father's ruthless urge to money and power. In this mood he comes under a strong religious influence and joins a mission in the slums of London. Blossey promises confidently to win him back to his father and herself. With her first move, the three passions—money, religion, and love—join forces with Philip as their focus.

"Philip, the convert and Oxford graduate, is perhaps the only person in this amazing swirl of black and red who bears any legitimate re-

semblance to those who do walk the earth, and even he suffered from 'gangrene of the heart.' The reader shares his feelings."
— Books (N Y Herald Tribune) p19 O 28 '28 250w

"The story is entertaining, it is brilliant, smart, although to be sure the vein seems to be overworked before the end. The sharp delineation of the three passions seems a little strained. "This novel lacks the strong grain and the intensity of 'Growth of the Soil,' but it displays once more Hamsun's superb mastery of Norwegian small-town types and daily talk. The plot is not so much a plot as a skillful accumulation of episodes, or hints for a number of plots, built around sundry firmly conceived, though by no means elaborately drawn, characters. In the earlier portion of the book the episodic technique, accentuated by Hamsun's chatty, sardonic whimsicality, lulls the reader into a certain undemandingness as to structure. But as the story rounds to its own particular kind of climax, at once casual and wilful, the reader is suddenly confronted by a well planned, retrospective picture in which the loosely assembled story is the background, while the characters are the subject." "The Women at the Pump suffers from the peculiar Norwegian long-winded naivety, a series of small humiliations whose cumulative effect does not make up for the lack of proportion in their telling. "Knut Hamsun's latest novel is a masterly composition of many elements, all of them conducive to delightful reading, all of them gracefully combining to modify and enhance each other. There is present, in fact, almost every element which is present in life, so that when these are skillfully interwoven and unobtrusively advanced for our notice, we have, although one trembles at uttering so profound a statement, little that is short of life itself." "Not one of his best books. It is too long and too decentralized. One tires of its mystification; tires of stolen peeps behind a score of masks and partial glimpses into a score of squirming consciences. Its theme, which seems to be that life in general is sufficiently antiseptic to disinfect individual lives, wears thin and suffers from the number of subjects brought up for deodorization. With all its caprices and fresh starts it strains the attention to breaking-point. But like everything that Hamsun writes, it has genius." L. P. Hartley

"The manner of the story has none of the intensity, the absorption in a theme, of 'Growth of the Soil,' and will not bear comparison with that remarkable book. 'The Women at the Pump' is almost exaggeratedly detached in method; and the author appears as a watchful but unfeeling god jotting down in short, staccato sentences the feelings, sayings, and doings of the mites that go about their futile business on this earth. Even Strindberg had a little pity for the sins and foibles of those he so passionately despised."

"This book is an endeavor to find out the sources of certain human tendencies of conduct, to trace those tendencies back to the cave man, and sometimes even to the animals that preceded him in our genealogical tree, and to show how their original form was modified so that it became the somewhat different thing it has developed into in human behavior. Dr. Hankin's work has especial value and interest because he has gone to ethnology and history for a great deal of his evidence, and he turns upon

certain historical events the light of the psychology he has thus made clear in order to explain why human beings have sometimes acted in such incredible ways."—N Y Times

Like all campaign biographies of the better sort, it admits faults and weaknesses in its hero, but as a rule it places these defects in the past and it invariably minimizes them, so that, in general, they almost appear as virtues, since they are represented as showing the hero's growth toward perfection. At no time are they permitted to stain the essential purity of his political character. The merits of the book are its comprehensiveness and its concreteness. Its thesis is that Smith is a Tammany politician who has outgrown the sordidness of the Hall and gained the right to be respected as a statesman. In supporting this thesis it provides a panorama of Smith's achievements which is timely, interesting and instructive."

From contemporary notes, letters and diaries supplemented by remembered conversations, Mr. Hardy's widow has told the story of his life from 1840 to 1891, when his "young manhood" came to an end and most of his great novels were already written. The background of his writing thru these years is made clear, the growth of his imagination and the germination of his novels.

" 'Winter Words' is a worthy successor to Hardy's other volumes, both in its badness—which, it would seem from a note somewhere in Hardy's biography, was deliberate—and in its several excellences. Here as before are many brief, memorable stories in verse; and, as was to have been expected, a number of them are terrible in the telling." Mark Van Doren

" 'Winter Words,' indeed; Hardy's landscape was always wintry; it had more than a nip in it: it had a bite. Even when spring ruled for the moment, we were always conscious that winter was not far behind. The diction, the presentation, matched the season. Stiff, uncomfortable, rheumaticky, it creaked and jerked upon its way. It is probably this inelegant and angular quality of Hardy's diction which has set so many readers' teeth on edge, rather than the sardonic character of his philosophy which has repelled them." V. 914.21 London—History. London—Social life and customs

"Mr. Hare's method, if anything of such haphazard nature as his arrangement can be called a method, is to project himself or any imaginary acquaintance into the past. We find ourselves first in the London of Chaucer; then, after the pilgrim's narrative and the tale of the unfortunate Anne Boleyn, in Shakespeare's London; then in the London of Pepys, and finally in the London of Dr. Johnson."—Books (N Y Herald Tribune)

"The author has brought to his work a wide and intimate knowledge of English history. It is done richly and delightfully, and the atmosphere and appreciation of other days are here. However, the method of arousing historical feeling and realization through the experiences of an imaginary character is not necessarily more successful or more vivid than the straight-

from-the-author account. Only the first long chapter, serving as an introduction, is written in this undisguised form."

"Based on considerable research the book is ingeniously contrived. To read it is like walking through rooms of period reconstruction in an exhibition, where every knick-knack illustrates its time, and the antiques are all brand-new and polished daily. What Mr. Hare tries to secure is not so much history as that elusive quality of atmosphere, and in the search for it he is able to assure himself and us that the essential quality of London life has not changed much. HARE, MRS ROSALIE HANCORN AMBROSE (LIND). Voyage of the Caroline from England to Van Diemen's Land and Batavia in 1827-28; with chapters on the early history of northern Tasmania, Java, Mauritius and St Helena, by Ida Lee. 308p il $6 (15) Longmans

994.6 Tasmania—History. Java—History. Mauritius—History. Caroline (ship) [28-199]

"One hundred years ago Rosalie Ambrose Lind, aged nineteen, was married to Captain Robert Hare, of the brig Caroline. The Van Diemen's Land Company had chartered the Caroline to convey sixty colonists, horses, shorthorn cattle and 300 Saxony sheep to the company's settlement on the north coast of Tasmania and on July 17, 1827, Rosalie Hare made the first entry in the diary of her eighteen months' voyage. Now, in its published form, Ida Lee, well known for her studies of early British voyages to Oceania, has added introduction, footnotes and index and followed the diary's brief entries with 200 pages of the early history of Northern Tasmania, Java, Mauritius and St. Helena, all visited on the voyage of the Caroline."—Books (N Y Herald Tribune)

"Writing for the pleasure and instruction of her brothers and sisters at home, she conveys through the clarity of her formal little style her keen observation, her simplicity and courage in hardship and danger, her love for her husband and her faith in God. Viewed apart from the story of Rosalie Hare, 'The Voyage of the Caroline' gives fascinating glimpses of early colonization, amplified by the editor's notes and illustrated by old prints, maps and globes." R. O. Sawtell

+ **Books (N Y Herald Tribune) p14 O 21 '28 500w**

"Her description of the voyage is charmingly unaffected; certainly, had it been meant for publication, it might have been less slight, but it would have missed spontaneity and naive truthfulness which are its chief attractions. . . The rest of the book, which describes the adventures of early settlers in Tasmania, Java and Mauritius, is necessarily flat by comparison, though it is agreeably written. One cannot help wishing that the diary had been a little longer."

+ **New Statesman 30:666 Mr 3 '28 450w**

"The diary is of no interest or importance, being, in fact, just the kind of diary we should expect to get from a young girl of nineteen who was neither particularly intelligent nor particularly observant, and spent a large part of the time in her cabin being sea-sick. The humble 'additional chapters,' which were probably approached in no very optimistic mood, are lively and well-informed, brightly illustrated, and in every way more worth while than the diary itself."

Kubrik the outlaw is the friend of an American engineer in charge of Siberian gold mines, and a mystery and a menace to the engineer's Siberian enemies. They have never seen him, but his very name terrifies them. This exciting tale of adventure tells how Kubrik and the engineer save the mines from Grubof and Otto Kroner, sinister figures left in the wake of the Russo-Japanese war, and how a small boy and an old priest help them.

"Shades of Bret Harte, Zane Grey and other chroniclers of the two-gun desperadoes of our Wild West seem to cast their tenuous shadow over this yarn of Siberia. But despite the rather obvious plot and the occasional soggy melodrama it is exciting reading for a fall evening."

"Dr. Harris provides for English readers a generous survey in two volumes of the philosophy of Duns Scotus and his place in medieval thought. In the first volume, which is devoted to the place of Duns Scotus in medieval thought, he takes up the life and works of Duns Scotus, faith and reason in the middle ages, and the relations between philosophy and theology . . . In the second volume, on the philosophical doctrines of Duns Scotus, Dr. Harris deals successively with his language and epistemology, ontology, his discussion of form and matter, of space and time, his proofs of the existence of God, his natural theology, his psychology, and his moral and political philosophy."—J Philos

A special merit lies in their elaborate footnotes, containing comparative passages from many lesser medieval philosophers whose writings are difficult of access. His inclusion in the Scotist canon of several writings which have been adjudged spurious by the most recent group of Continental critics was surely ill-advised. The weight of present authority is against him, and the fact that he bases many of his conclusions on these doubtful works makes it necessary to use his volumes with a caution which would otherwise have been needless."

Mrs Harrison has spent much time in Asia, and has written other volumes about it. In this book, the result of recent prolonged contact with Asiatic countries and problems, she attempts to outline the trend of post-war events in each of these countries as a unit, and as a member of a racial group, and to report on social, economic, and psychological conditions and reactions to world movements.

"The academic historian would hesitate to flit so rapidly through Turkey, Persia and Arabia, across India and Afghanistan to China, Japan and Siberia. Mrs. Harrison makes mistakes of detail—many of them. Yet she gives a living picture of a living continent, where Christ, Mohamet and Lenine play gospel roles. She is at her best, of course, in describing what she has seen with her own eyes, and she understands and admires most men of dramatic action." L: S. Gannett

"It is a straightforward, live, human document and shows men as they are—good, bad, worse or indifferent. Refreshing is the artlessness with which these pages disengage the fact that the Armenians, over whom so many tears have been shed, are as murderously that-ish as Turk or Tartar; and as a picture at first hand of the efficacy of war and race hatred as producers of bestiality and ruin, it is—albeit quite unconsciously—admirable peace propaganda." "Although it abounds with cruelty, bloodshed, and abject misery, it does serve to give an accurate description of the conditions at that time and the bravery and fortitude with which the people faced them. It is a bit involved, and rather difficult to keep in mind who has the temporary ascendency from one moment to the next; but, on the whole, it is a stirring story of bestiality and of beauty, for, in the words of the author, 'men are like that.'" "An actual experience, warm and vivid to the individual (in this case, to two individuals, the Armenian himself, and the American who made his acquaintance), put into semi-fiction form becomes neither one thing nor the other. The author, professor in the School of dental and oral surgery, Columbia university, has prepared by means of the questions and answers method a most useful little book on the care and hygiene of the teeth from infancy to old age.

"The subject is surprisingly well covered in a non-technical way in these few pages, though still more emphasis on the importance of preventive dentistry (with a discussion of how preventive dentistry differs from palliative or curative dentistry) might have been expected. The book would have been improved by a brief interesting statement emphasizing the present status of oral hygiene and pointing out that

Finely printed and illustrated, this is the official biography of the Pittsburgh coke master. There is more of the capitalist than of the man in the narrative. The dramatic events of his business career are stressed, his connection with Republican politics and his benefactions.

HASKINS, MINNIE LOUISE. Through beds of stone. 356p $3 Knopf [7s 6d Macmillan]

29-691

A long novel describing a young girl's development to emotional and spiritual maturity. Margaret Meredith's first position as assistant to the editor of a London literary review marks her introduction to Peter Thorpe. He comes of a distinguished family whose brilliance borders on insanity. Knowing this Peter has built up his defenses. His love for Margaret and hers for him, however swift and beautiful, is a tragedy, the hardest experience, of which war and travel form a part, in the process of Margaret's spiritual awakening. From this and other contacts, from the love of another man and his death, a religious philosophy gradually emerges.

"Her story is rambling and the telling of it was evidently a minor duty compared with the necessity of annotating it thoroughly with reference to its moral values. The book's tremendous seriousness is unrelieved by any ray of humor, by any palliative." Juana Allraum

"Through Beds of Stone is a long novel, though that does not make it surprising. It is extremely earnest; it is careful and eloquent; it contains many grave reflections upon life and destiny. New Statesman 31:330 Je 16 '28 480w

"This first novel has quality. Because the author is more of an essayist than a novelist, the incidents of the story are but the stepping-stones on which she stands to record her spiritual introspection and expansion. The one big moment in the book is smothered in the heroine's self-analysis."

"Miss Haskins writes seriously and sometimes heavily, and pauses at intervals, in the old-fashioned way, to make general reflections upon the religious, social and moral problems encountered by her heroine. We begin soon to suspect that the story and the characters exist for the sake of the general reflections rather than in their own right. This generalizing method makes both the outward and the inward plot seem unreal. Neither the thoughts nor the actions of the characters appear to belong to the real and individual world."

HAY, MALCOLM VIVIAN. Chain of error in Scottish history. 243p $4.20 (10s 6d) Longmans

274.1 Scotland—Church history 27-25403

The error in question is the treatment by English and Scottish historians of the history of early Scottish Christianity. The author reviews as a whole the literature which has grown up around the church history of Scotland, shows how this error arose and how it has persisted to the present day.

"The book makes interesting reading and is cleverly arranged so as to sustain interest throughout. For its clear enunciation of historical principles it should be in the hands of every student of ecclesiastical and political history." D. D.

+ Cath World 127:376 Je '28 420w

"The author's treatment of historians, alive and dead, is deplorable. He cannot distinguish between intellectual error and moral obliquity, and his criticisms of honoured names like those of Haddan, Hume Brown, Dowden and MacEwen are eminent examples of a method which cannot be too severely condemned."

941.5 Ireland—History [22-442]

This short history of the development of the Irish people contains nearly 600 pages. It is written by two teachers, for students, and from a frankly national standpoint. A section in each period is devoted to the literature of the time.

"Contains an excellently arranged and encyclopaedic account of the Irish people. The authors have unfolded their story in a succinct manner and indicated a philosophical attitude toward the phenomena of Gaelic history. Such a book, with its huge array of paragraph captions, should prove invaluable to the reader who desires to find something in a hurry."

+ Books (N Y Herald Tribune) p15 F 5 '28 70w

"The present work adds nothing to the sum total of knowledge relative to the history of Ireland; nor is its purpose to. The method of arrangement is claimed to be original, however; and though recognizing it as such, we do not especially fancy its choppy and more or less disconnected method."

— + Boston Transcript p2 F 1 '28 100w

"One wishes that more space had been given to the social, economic, and intellectual history of the Irish people. Moreover, portions of the volume have every appearance of having been hurriedly composed. This is especially true of the last chapter. Bibliographical material is utterly lacking, although this is somewhat compensated for by the inclusion of a synopsis of Irish literature for each century. While the sketch maps are good, they are too few in number. The authors are avowedly nationalistic, and this is evident throughout the work. One would hardly recommend the volume as a scholarly, unbiased account."

The period is notable for the persecution of the early Christians, for the conquest of Britain, the German frontier campaign, the wars in Dacia and Parthia, and for the social reforms, including what may be called the family endowment scheme instituted by Nerva. On all these topics Mr. Henderson has much of interest to say. As in his earlier books he has drawn largely on the scattered studies of Continental scholars."—Spec

I am mustering all I have to say against it initially, because the fact remains, blindingly clear, that we have in Mr. Henderson's imagination an imagination of the major order. He could not only conceive and plan one of the strangest epics it has ever been my lot to read, he has beaten the things out in couplets of not infrequently excellent verse. . . Some passages take fire and burn incandescently as little contemporary verse burns in our day,—beside the fact that here is range and space through which the pinions beat of a high imagination." At other times, in the almost interminable and inconclusive conversation of the voyagers, he delights in out-of-the-way-learning. Mr. Henderson has a very considerable aptitude and fluency in verse. He has a large vocabulary and is familiar with the works of great poets. His learning does not however, show itself in a dry, academic style, but in an exuberance of extremely poetical diction."

It was during his long Irish exile, as he regarded it, that his greatest work as a writer was done. . . Possibly had he lived elsewhere than at Kilcolman. . . the Faerie Queene would have been as lovely, but it would have been lovely in a different way. HERBST, JOSEPHINE (MRS JOHN HERMANN). Nothing is sacred. 244p $2 Coward-McCann
28-22776

In a style and a prose perfectly fitted to her theme Miss Herbst tells the drab story of a commonplace small-town family—Mr and Mrs Winter and their three married daughters. There is no warmth of affection among them but a strong family feeling that makes them hold together and share the burden when disaster overtakes Julia's husband, a weakling not worth the cost of the sacrifice. It is old Mrs Winter, as always, who bears the brunt of the burden and her personality dominates the story.

"Josephine Herbst's novel took command of my intelligence with its first sentence. That is due not to the interest of the subject but to the sheer skill of its narrator. There is no reason—no reason in the world—why I, hardened European as I am—should be interested in and should be kept reading far into the night twice running by the affairs of a quite undistinguished family in a quite indistinguishable American small town—but that is what has happened to me." Nine American cities in days long past make the background of as many short stories which reproduce, severally, the life and manners of a period and together form an historical pageant of America from colonial days to the Civil war. The scene of the first is Pittsburgh in 1800, with its fifteen hundred inhabitants already too crowded, in the eyes of the pioneer Thomas Armit, for decent living. Natchez, New Orleans, and Lexington are pictured in ante-bellum days. HERSKOVITS, MELVILLE JEAN. American negro; a study in racial crossing. 92p $1.75 Knopf

325.26 Negroes 28-4908

"Herskovits has centered his attention upon the biological problems, as his sub-title—A study in Racial Crossing—indicates. The starting point is the observation that the Negro in this country represents an amalgam, for he has crossed not only with the Indian, but with the white stock as well. . . Not only does Herskovits find this amalgam, but detailed measurement indicates that the crossing has produced a new physical type which may with accuracy be designated as American Negro. . . It is a new Negro, a physical type that nowhere else exists. It is the unique production of this continent. Not so negroid as African stocks, nor as caucasian as the native population, it falls between them."—Sat R of Lit

Dr Hertz is of the belief that racial questions have become the greatest of all dangers to the peace of the world. He analyses racial origins, and deals a stout blow at the theory of Nordic superiority.

"It is, perhaps, open to question whether he has not wasted valuable space by discussing Gobineau, who wrote more than seventy years ago; and to refute Houston Chamberlain is rather like flogging a dead horse; but it is better to include too much than too little. With his conclusion there is little to find fault, it is in the details of his argument that Dr. Hertz goes astray at times. The chief defect of the work is, however, the absence of an index."

— + Sat R 145:469 Ap 14 '28 300w

"This book is distinguished by the constant and elaborate citation of authorities dear to German scholarship. On an early page Dr. Hertz notes that the English, while comparatively free from race hatred, are strongly opposed to racial intermarriage. This attitude on the part of a people who are proud of their mixed descent raises the interesting question of the limits of desirable miscegenation—an issue which is quite independent of race feeling. Dr. Hertz's book suffers in the eyes of English readers from its failure to discuss this issue."

"A glamorous romance of Venice in the Middle Ages, and unlike most of the historical novels of that period, the romance comes through trade rather than war. It is a tale, swift-moving and direct, of the adventures that befall two young clerks of Venice, Andrea Pisani and Giacomo Bernado, when they go to Damascus charged with the duty of buying new merchandise to tempt the Venetian buyers. Attar of roses, candied apricots, wheat and pepper, all play their part in the mad series of happenings, which finally end in victory for the Venetians over their rivals, the Genoese; wheat for the starving Venetians themselves; and glory, renown and honor for the two young patriot traders."—Cleveland Staff Notes

Helen's mother died in giving her birth. So close was the affection between father and daughter that when Helen grew up love for another man seemed impossible to her. Many men loved her. A few were her friends. An artist was the first to rouse her to more than impersonal interest, but it remained to the first and most faithful of her suitors to capture her fully awakened love. Helen is pictured with her father and her friends in a setting of English town and country life before and after the war.

Now comes another painstaking scholar to add, after years of patient and courageous research in the Public Record Office in London, the first biography of the man whose work was, as one critic says, 'not only the greatest of English prose romances, but also in a very real sense the pioneer of the English novel.' The letters were addressed to a young woman named Fanny Henshaw, to dissuade her from leaving the Church of England to join the Society of Friends. Fanny Henshaw's side of the argument is also given and the narrative of Dr John Byrom, her friend and adviser, at whose instigation the letters were written. The diarist meant all along only to act the part of the co-respondent to help out a friend of hers whose wife wanted a divorce, and who was himself too much in love with his wife, and too intrinsically decent, to be willing to furnish just ground for divorce. They were in collusion, the diarist and the devoted husband, to provide apparent grounds for the divorce. Hence the title, 'Bed and Breakfast.' "—Boston Transcript

HODDER, MURIEL WINIFRED SYLVESTER. Pax, the adventurous horse; with a preface by Edward Garnett. 128p il $2 Viking press [6s Faber & G.]

[28-21168]

Pax is a three year old English horse of "adventurious" disposition. He is stolen from his idle, unhappy mistress, and is taken by the brother thieves to Germany and presented to their beautiful highly moral sister Amellia. The thieves are caught and brought to trial. In the climactic court scene the lovely Amellia pleads for them in a Shakespearian outburst, and dies. Pax, who has highly enjoyed his adventure, is restored to his now reformed and happy mistress. Miss Hodder wrote this story when she was eleven. It is only just now brought out, illustrated with naive line drawings by Ray Garnett.

"The organization of the book is weak. Several of the devices seem as appropriate in one chapter as in another. Related chapters are not grouped into parts. The Preface anticipates the justifiable criticism of padding. Padding is due to frequent repetition of ideas 'in other words' and to oversimplification. One almost gets the impression that beginning teachers know nothing about classroom situations rather than that teacher-training is a residual function. An alert person will pick up through student experiences many of the devices given. The book, however, is within the grasp of beginning teachers with a minimum of training, and it adds several new case situations to the literature on the subject." H. H. Punke

This is the first text on agricultural economics in a series to be called the Agricultural commerce and administration series. The author, who is head of the Department of agricultural economics in Iowa state college, says of the book: "The treatment is frankly general and analytic in nature. It is a statement of principles rather than a description of farming as it is found in various parts of the country or under various types of farming. Its purpose is to analyze the functions of the farmer as a business proprietor." (Preface)

From the title chosen it would be supposed that the author was concerned chiefly with a study of Augustus and his extraordinary story. These discussions that are not allowed to interrupt the narrative are contained in critical appendices, and many of them (particularly those in which the author is girding at Ferrero) are brilliant, if not always convincing. It can hardly be supposed, for instance, that Dr. Holmes will succeed at this time of day in rehabilitating the doctrine that the title *princeps* meant *princeps senatus*, but he does his best. Jane Parker was a neat little spinster who looked "as though she had been cut out of cardboard with a very sharp pair of scissors." One May morning she awoke with the realization that despite her forty-four years she had never

known life. So she packed her clothes and started for Hobdingle, the first place she encountered in a guide book. Hobdingle was the typical quiet English village with a few original contributions: Anne Leaf for instance, and her gentle mad brother Sylvanus. With them Miss Parker stayed for the most startling three weeks of her life. She met others too and caught glimpses of harassed lives. Then she was overcome with a great loneliness for the things to which she was used and she escaped once more, this time to her old familiar flat. But she had seen life and around her lips at times there played a faint reminiscent smile.

"Miss Hooke's harvest contains much that is lovely in humor and pathos and flaming imagination. And with such commendable material, she could have made a finely articulated book. But it is not dovetailed. Too many impressions are crowded in, detracting from the book as a whole . . . "The author is a sensitive, highly-keyed woman of the artistic temperament. She, the only daughter of Josephine when Napoleon married her, was married at the age of seventeen to his most profligate brother, Louis Bonaparte, who, weakling as he was, filled her early years with domestic sorrow. Often she is on the verge of a breakdown. . . The record of such a nature is a highly sensitized one, more often she is in tears than in laughter, and yet through it all emerges, albeit a bit dimly at times, the figure of a strong, self-reliant personage who had learned to depend on herself first of all—a prime duty in that rigid court of Napoleon."—N Y World

320.1 Political science
Written by a Chinese scholar, professor of political science in Nankai university, Tientsin, the book is a critical study of the pluralistic theory of the state, as opposed to the monistic theory which holds that the source of all political authority in the state should be a single and absolute power. The pluralist doctrine on the contrary, which the author subjects to a penetrating but not unsympathetic criticism, advocates a division of sovereignty, recognizing allegiance to more than one source of authority.

They are all there, with their physiognomies, their natures, their battles, and even their weights all told. Rebekka's battle with life is particularly fine. She, the patriarchal Henry, and the younger Henry are rounded characters, and Miss Hurst knows how to make the most of their brave pathos. Even so, it takes some patience to cope with 400 pages of the author's method."

HUSSEY, DYNELEY. Wolfgang Amade Mozart. (Masters of music) 332p $2 Harper [7s 6d K. Paul]

B or 92 Mozart, Johannes Chrysostom Wolfgang Amadeus

"Of no great composer can it be said with more truth that his life and his music are inseparable than of Wolfgang Amade Mozart. In him the two were so closely interrelated that there is no speaking of the one without the other. In the pages that follow I have dealt with both aspects of my subject side by side, keeping to a chronological order, except where it was convenient to treat certain groups of works together. At the same time I have attempted to exclude the mere anecdote, which may be amusing or interesting but is, in Mozart's case, usually worn thin with much telling."—Preface

HUSTON, MCCREADY. Dear senator. 333p $2.50 Bobbs

28-21820

Dan Meredith had once rescued a girl from an embarrassing situation. He had never learned her name. Later he married money and position, and developed political aspirations. Then the girl who had loved him during the intervening years came back into his life. In the struggle which developed between love and ambition, love got the worst of it.

"An uncommonly shrewd picture of politics as it is practised in the Mid-Western state of Illyria. If it were not lacking in any real interplay of character, it would be an important novel." E. H. W.

"In a year that has already seen the appearance of more than one gaudy novel of politics put out with the intention of capitalizing the interest of a Presidential year it is a pleasure to say that here is one that stands apart by reason of its simple integrity. Mr. Huston has the art that conceals art; his novel becomes a novel when it suits his purposes, but in the main it is, and reads like, the best sort of political reporting, faintly tinged with editorial comment." "The title-story of Miss Vere Hutchinson's collection, 'The Other Gate,' is excellent, a first-rate piece of work. It welcomes those weapons of the novelist's art, melodrama, coincidence and improbability, which are now too heavy and too double-edged for most writers to hold, and wields them in masterly fashion. One never finds Miss Hutchinson prompting her characters; she lets them speak with their own voices. Indeed, her power of delineating character through conversation is remarkable. HUXLEY, ALDOUS LEONARD. Point counter point. 432p $2.50 Doubleday, Doran [10s 6d Chatto & W.]
28-25185

There is no definite plot to this novel. Mr Huxley takes a cross section of intellectual and social London and shows his complex horde of characters escaping from boredom and futility by the easy route of sexual adventure. All his characters of whatever station and circumstance follow the same road, and Mr Huxley, reporting their conversations, describing their amours with his accustomed brilliant wit, produces a savage satire on his times.

"Unflagging in its spirits and unflagging in its intelligence, throughout more than four hundred pages it vindicates Mr. Huxley's right to be considered the most able of contemporary satirists and the most perfect representative of the mood which he describes. Far less esoteric than certain of those who have reacted against it, and far less superficial than others who have exploited its mere impudence he has given the most lucid and most complete possible statement of that disillusion which is not the exclusive property of philosophers but which in some form or other manifests itself to-day in every class of society." " 'Point Counter Point' is a terrible book, endurable only because it is also hilarious, and it illustrates once more how remarkable is the balance which its author is able to maintain between mere wit on the one hand and mere indignation on the other. . . The motley world which he describes—a world in which all sorts of people, from the frank wastrel to the scholar, are united by a common inability to think their way through the confusion of their age—is a painful one and its creator is, at bottom, as lost as any of his creatures, but his very ability to describe and to analyze supplies him a refuge. He looks down from no mountain top and achieves no real serenity: he solves no problems and he sees, in a word, very little further than his characters do. Yet he manages to exist—to live and to write—in a world where all of the others die some kind of death." J. W. Krutch

There is a far greater depth of emotion in this book than in any other of Mr. Huxley's and a far wider range of it. His prose has improved and his gift for rendering conversation seems to have become more humanised; the talk, except in the rather wooden opening party, is that of human beings, and the reader can follow it as keenly as he could a broadcast tennis match. Spoken essays have given way to real conversation, the free play in talk of ideas and intelligences." C. C.

"Mr. Huxley's new novel contains all the ingredients of his former books, but hotter and stronger and in greater abundance. It is an imposing and a dangerous dish, not meant for queasy stomachs. Where else shall we find so brilliant and compendious a diagnosis of the modern world? Most novelists are content to describe it without reference to the progress of scientific discovery; Mr. Huxley takes all knowledge for his province and simplifies without vulgarizing it. . . Under the fire of his scrutiny the most prosaic, concrete object, a poker for instance, loses its material quality and is melted into a solution where pokers are as abstract as thoughts. It is not his technique, excellent as that is, but the unifying power of his vision that exalts his work into the condition of music." L. P. Hartley

Yet the book is crowded with provocative creatures, some of whom are mere birds of passage, like the enchanting Polly Logan. Moods of sad and lovely regret flower like groups of jonquils in the corners of the bitter chapters. A learning both wide and ardent enriches the pages with remote fair images. In spite of a few masterly scenes and descriptions, the persons always come second to the ideas. But that is not to say that the book is without form. The author's purpose was to set point counter point: to pose these various forms of rottenness against each other and against human soundness. . . IMBS, BRAVIG. The professor's wife. 305p $2.50 Dial press
28-29078

This amusing book is less a story than a picture of an academic coterie in a fictitious college town. Professor Myron Ramson and his wife Delia frequently entertain distinguished literary guests from out of town. These are living persons, mentioned by name and described. The conversations and dissertations at dinner or over the tea-cups are reported in naive style by Eric, the Ramson's handsome butler. He is generous with all his patrons, but the professor's wife is his favorite.

"Mr. Imbs doesn't need the added sauce given to his novel by the rumor industriously spread around that in its pages we meet real celebrities called daringly by name, for his wit is quite nimble enough and his observation quite keen enough and his invention concrete and lively enough to make his book delectable without any sauce. . . 27-19201

After a rather notorious affair in England an artist is living in quiet happiness in Flanders with a French wife and their two children. The war comes and the artist's old enemy, now a colonel, discovering the sylvan retreat, with a sneer drives the artist into the war. The French wife nurses her bitterness against the colonel and has her chance at vengeance when the fortunes of war put him in her hands.

In writing this "simple story" of music which is designed to increase musical appreciation among the masses, Dr Isaacson adopts an elliptic, hearty style with a strong personal touch. He talks about various kinds of music, the opera, the concert, and jazz, devotes a chatty chapter to composers, "outlines" musical history, and gives a glossary of musical terms, not altogether accurately defined.

Royal Cortissoz, in five supplementary chapters, takes up the record where Isham laid it down. The book is made up of extracts from Captain James's day-to-day account of the voyage interspersed with explanatory paragraphs by the editor.

"Among the heroes of Arctic exploration, Captain Thomas James must stand high. The story of his terrible winter in Hudson's Bay, with a ship of seventy tons, and a crew of twenty-two, will not easily be surpassed for courageous achievement, uncomplaining endurance, and unfailing resourcefulness. We could wish that Commander Bodilly had been content to edit the full text of Captain James's own vivid log, instead of alternating quotation with summary and comment. Nevertheless this is a delightful book, most attractively produced." C. E. Fayle

JAMESON, STORM (MRS GUY CHAPMAN Farewell to youth. 310p $2.50 Knopf [7s 6d Heinemann]
28-18499

Nat Grimshaw's youth is shorn from him by the not uncommon circumstance of a hasty marriage and slow disillusionment. Reared in the gracious if decaying setting of beautiful Saints Rew, he is hardly more than a school boy when he is caught by a lovely face and pressed into a hurried marriage. His love survives all manner of blows, even the unfaithfulness of his wife with his best friend while Nat is at the front. But at last a divorce arranged, and almost reluctantly, Nat marries a cousin who has loved him long and unselfishly. The boy's mother is a delightful character. His relation with her is a bright thread running thru the book.

Booklist 25:71 N '28

"The story would be an absorbing one if the young people were less bloodless and unreal. Miss Jameson has the capacity for creating character—Nat's father and mother are admirable figures, full of lovable whims and eccentricities—but she is too often blinded by a morbid sentimentality. She writes beautifully, and she can evoke the essential charm of English life, but her novels lack as yet solidity and balance." E. H. Walton
+ — Bookm 68:97 S '28 180w

"One grows a little weary of complications of sentiment near the end of the book. For Nat's decisions and indecisions about Ann and Saints Rew and his career have become tedious. Moreover, Uncle Daniel and the story of his fidelity and infidelity to his invalid wife, Fanny, who complains that 'nobody ever tells her anything,' belong in another book. In fact, several things in 'Farewell to Youth' belong in other books, some of which have already been written." Garreta Busey

" 'Farewell to Youth' seems reared on flimsy foundations. Miss Jameson's most successful characterizations seem to be the ones who hover on the periphery of the central theme... As a story it is all readable enough, it is written in prose that only young English women know how to write, but the process of Nat's saying farewell to his youth is only obliquely attacked."

JESUITS. LETTERS FROM MISSIONS (NORTH AMERICA). Indians of North America; sel. and ed. by Edna Kenton from The Jesuit relations and allied documents: travels and explorations of the Jesuit missionaries in New France, 1610-1791, ed. by Reuben Gold Thwaites. 2v il $10 Harcourt

971 Jesuits—Missions. Jesuits in North America. Indians of North America—Canada. Indians of North America—Missions. New France—Discovery and exploration 27-20893

"For a second time Miss Kenton has selected and edited two volumes of letters and reports of the Jesuit missionaries to New France from Reuben Gold Thwaites's seventy-three volume Jesuit Relations and Allied Documents 1610-1791. The main unit in interest and importance in volume one is Paul Le Jeune's relations covering the period 1632-1649. Le Jeune, a truly scholastic mind, observed and recorded the Indian in his environment, both natural and social, with exceptionally intelligent insight considering the veil of prejudice with which his monastic training envelopèd him. The Marquette account of the exploration of the Mississippi centralizes the second volume. The last part of it contains letters of a more personal nature—Du Poisson's account of voyaging up the Mississippi in flood and Rale's letter to his brother."—Bookm

"As material for historical research the 'Relations' have been well known, but Miss Kenton's new edition is most valuable to those non-specialists who still like to masticate some of their information instead of imbibing it as pre-digested outlines. Both volumes are illustrated with contemporary maps and sketches as well as a large modern map. Miss Kenton's short introduction and the admirably direct introduction of Thwaites, together with the full but unobtrusive notes, form all the background necessary." Mary Hunter

"Miss Kenton has approached her task with careful consideration and a praiseworthy attention to detail. The passages from Thwaites are chosen with discrimination, and his valuable notes are used as freely as his texts. It is unfortunate that Miss Kenton has allowed her enthusiasm to interfere with her critical attitude in ascribing to the writings of the fathers a significance which they do not possess, and which their authors did not intend." Miss Johnson is the director of the school. Her interesting account of the school and its methods is illustrated from photographs of the children at work and play.

Having submitted to the Working Council of the Bureau of Educational Experiment a plan for the establishment and management of a nursery school, she was herself appointed its first director and has held the position for eight years. "Miss Johnston has matched her material with a style that, in its swift, episodic manner, conveys a good deal of the wild, tumultuous nature of her central character. It may reasonably be objected that such a method, by its scant brevity, sometimes gives an impression of superficiality which a defense of compression does not justify. The great virtue of such a style, of course, is that it gives the story a swing and movement which are gratefully received in any novel." C: Poore

"Miss Johnston has set forth her tale with grim straightforwardness, implying rather than delineating the traits of her characters, and carrying her plot along by means of economically phrased dialogue. She has injected sympathy into it, but not sentiment, and she evokes for its sordidness pity rather than revulsion. 'Hanging Johnny' moves forward with swiftness, with precision, and with accumulative tension to an end as effective as it is credible. The book is good not as the work of a girl of eighteen but on its absolute merits." Amy Loveman

"Something of the spirit of Jude the Obscure pervades this extraordinarily mature first novel by the author of only eighteen years. There is no obvious imitation, and we do not suggest, of course, that Miss Johnston is at present comparable with Mr. Hardy. Yet few readers, we think, will close Hanging Johnny without at least being reminded of the Wessex master. Miss Johnston's grimness, with its underlying compassion; her irony; and her straightforward narrative style, with its simple, vivid diction; all these recall in some measure the creator of Jude. Our established novelists would gain credit by such a book as Hanging Johnny. As the work of so young a writer it is altogether remarkable." Gilbert Thomas

28-9464

A rich man's daughter is saved from an accident by a workingman one day, and her father goes to jail charged with embezzlement the next. The two incidents have their ultimate connection, for the girl, deserted by her fiancé, breaks the engagement and goes to work. She meets the "mere workman" who rescued her, loses many of her lofty ideas, works hard for her father's release, and comes to love the workman. Written in the "came-the-dawn" style.

The book, which is intended as a text for college classes or business classes, takes up the commercial position of each of the South American republics, the history of its trade developments and future trade possibilities.

"A really definitive account of the commercial development of South American countries has at last made its appearance. More than a compilation of statistics or a slavish paraphrase of official reports, this capital book by Dr Jones goes deeply into the underlying causes of the observed commercial phenomena; more than a mere record of facts, it furnishes a thoroughgoing interpretation and explanation of those facts. Most important of all, the actual state of affairs has been confirmed by the author's personal observation; and the interpretation of conditions is made possible in its masterly way only because Dr. Jones carried out elaborate field studies." KAHLER, WOOD. Early to bed. 288p $2.50 (7s 6d) Knopf

28-17095

The cheerfully sophisticated story of an American boy in Paris and his love affair with an exotically luxurious Russian countess.

"The theme has excellent possibilities for light skillful revealing treatment. Paris, so luxuriant in its emotional life that it seems almost tropical to an emotionally starved American, and in it a young American seeking to regulate his life according to plan and practical maxims of the Poor Richard sort—from this a fine comedy might grow. "There is a complexity of time and place in Diversey that is often admirable: only occasionally does the sureness of aim slacken, and something of self-conscious sentiment creep in. "Chicago is the most dynamic city in the world and its brutal vitality makes the collective life of the city such a phantasmagoria of the sublime and the absurd, the commonplace and the fantastic, that no writer yet has been able to give the reader the special 'feel' of the place. Mr. Kantor has tried it; and in falling short of his aim he has nevertheless written a timely and exciting story. Still, through this sordid atmosphere, poetry struggles up to have its say and will not be slain . . . Mr. Kantor gives a touch of universality to the bewildered-youth-in-the-sordid-city theme. KELLETT, ERNEST EDWARD. Story of myths. 275p $2.75 Harcourt [7s 6d K. Paul]
291 Mythology [28-10203]

Originally delivered as lectures to students these chapters deal simply and informally with the main psychological elements which have entered into the growth of myth. The various types are grouped under such headings as myths of the heavenly bodies, of sky and sea, of great catastrophes, creation myths, myths of birth and death. The many illustrative examples are taken chiefly from Greek and Teutonic mythology.

"The chapters on psychological elements in the growth of myth and on existing relics of old custom and myth will be found especially valuable in giving the student the point of view of the student of folklore in approaching his material, and the conditions, both psychological and cultural, of the myth-making stage in the development of the human mind. The chapter on the history of folklore might have been a little more systematic. Some notable names are not mentioned, for example, Sir Laurence Gomme and Sir John Rhys. A select bibliography would have been an advantage, and have added materially to the value of what is, within its limits, an excellent book. The index is particularly good and useful."

"Spearman has for some years challenged the thinking of psychologists with evidence that there is some kind of general factor characteristic of an individual or peculiar to him which affects to some extent all his mental activities. He has issued in The Abilities of Man (Book Review Digest, 1928) what he considers his final statement of the theory. Kelley now issues a definite challenge to Spearman's conclusions. He advances evidence to show that there is not one general factor running through all of an individual's activities but a number of rather general factors. He isolates and identifies these. His sixteen theorems reveal the minimal number of general factors which will account for several variables, and the conditions required."—El School J

"There are artists whose left hands constantly fight their right. George Kelly is one of them. Although he belongs unquestionably to the small group of four or five native playwrights who show promise of challenging O'Neill's priority, he has yet to write a play in which these contradictory forces are not at war. As accurately as I can analyze the evidence, it is a case of Kelly underrating the intelligence and perspicacity of his audience. He seems to be in dread that his motive will not be plain. Having made his point, therefore, in the subtle, unobtrusive, self-effacing manner of the true artist, he mounts the platform, waves his hands, and otherwise deports himself unbecomingly to the artist he essentially is. In 'Behold, the Bridegroom—,' the author succeeds for two acts in keeping this besetting temptation in control, only to yield summarily, and as disappointingly as ever before, in the first twenty minutes of the last act." Both comedy and tragedy stalk through his pages, the frightful weight of environment is emphasized by means of the white man's life, the tales taken as a whole, make a dark, even a gloomy pattern, but it is probably a pattern that life itself has woven, and which Emmet Kennedy has merely recorded with the faithfulness given by a kindly sympathy and a deep interest." Most admirers of Joan will think this book subtracts. Four pages of quotations in an appendix prove that the divergences from the usual story have some foundation in the gossip of Joan's contemporaries. Still, it is not pleasant to see the magnificent, calm, and single-minded Joan of the orthodox story turned into something like the heroine of a second-rate kinema film, desperately in love with an equally ordinary young man, and doing her public acts mostly as the unconscious tool of clever priests."

In this story (which by the way is manifestly not a translation but an original piece of writing in a mastered tongue having much resemblance to Conrad's early use of English) we begin with a chapter recounting how the monarchy fell. As actual narrative, this book, exciting though it is, seems of less importance than as psychology. The writer tells us again and again that his memory is imperfect, on details not indeed of major importance. But the thing to note is his standpoint: he does not admit defeat. "A slim volume of poetry expounding the mysticism of the East in the words of one who came out of Southern India, from Adyar, to be exact, the center of Theosophy, to enlighten the Western World."—Sat R of Lit

"One can see in reading these poems that justification for calling Krishnamurti a teacher. His words are precise, his metaphors clear, his vocabulary elementary. With unerring touch he reaches our mystical side and draws our attention along almost in spite of ourselves."

"This is a religious book by a savior of thought whom Mrs. Besant has sponsored. To the layman, untouched by Theosophy, the ejaculations are somewhat thin and prosy—this is preaching, not poetry—and the language in which the teaching is delivered is uninspired from the point of view of the poet."

KROLL, HARRY HARRISON. Mountainy singer. 310p $2 Morrow
28-20223

Against a Kentucky mountain region background, the love story of Danny Hubbard, the mountainy singer who "couldn't git the hang of life," and pretty Shoon Westbrook, also of the mountain people, runs its course.

"Mr. Kroll knows his setting, but it is unfortunate that he seems to have only a speaking acquaintance with his two principal characters. Whenever he is emphasizing local color, in the quaint, idiomatic dialect of the Southerners, or in detailed and sensitive description of the country, or when he can use his characters to intensify their background, he is above reproach. To create personalities that have any depth, however, seems to be out of his artistic reach."
— + Books (N Y Herald Tribune) p25 S 9 '28 820w

"As a study of the people living in the Tennessee mountains, their peculiarities, habits and customs, 'The Mountainy Singer' is notable. But as a novel its theme is not quite agreeable. The whole scaffolding of the situation seems uncalled for. Some other device in building up a complication might equally well have been used, with much better taste."
— + Boston Transcript p3 S 15 '28 210w

"As a picture of Tennessee mountain life, 'The Mountainy Singer' is to be recommended. The dialogue is expressive and interesting. Throughout the narrative there are many sharp silhouettes of hillfolk in their activities. But the book is marred by Dan's saccharine sentimentalities."
— + N Y Times p6 S 2 '28 500w

"There is a vibrant spontaneity in the simple telling of the routine life of these mountaineers that has something akin to folk lore in it, but when Mr. Kroll elaborates into individual characters the spell is at once broken. The plot is labored; but the hills and valleys and scents and sounds of Tennessee lurk in the pages, for the most part elbowing the artificialities aside."

KYLE, MARGARET. Little Sister. unp il $2 Harper
27-18540

Stories of the adventures of a small girl of five known as Little Sister. The stories first appeared in John Martin's Magazine.

"The little tales tell about the interesting things she did on many delightful days and are so appealing that small girls will love them and their heroine. The author has a remarkable faculty for writing straight out of and straight into the childish heart, not around it and about it and down to it, as sometimes happens."
+ N Y Times p36 D 4 '27 100w

"We are told that children love this tale. Certainly a reading mother will give her affection to the small heroine, but will children want to absent themselves from the streaming of their own minutes for anything so like these minutes? However this may be, the author's feeling for what is inside a little girl's mind is positively uncanny: without aid of a psychologist, we feel the truth of Little Sister. A queer book, usual in many ways, but unusual as a whole!"

Helga Crane is an intelligent, attractive young woman of mixed Negro and Danish blood. She is teaching in a large colored school in the South. Sick of it, she comes to New York to live for a time with a friend in fashionable Harlem. Then follows an interlude in Denmark. Helga refuses a Danish husband and, returning to New York, finds the one man she might have loved already married to her friend. She plunges at last into marriage with a colored evangelist. Her formless ambitions are thereafter stifled in repeated childbirths.

"The book is well written, though the style has that choppy, involved, self-conscious quality that marks the majority of the sophisticated novels coming off the press now. The pictures of Harlem are tremendously interesting, full of color and delightful detail. The portrait of Helga Crane is rich and vivid; and yet it struck us as being elusively incomplete." K. S. LATOUR, THERESE LOUIS. Princesses, ladies and salonniéres of the reign of Louis XV; tr. from the French by Ivy E. Clegg. 284p $5 Knopf

920.7 France—Court and courtiers. France—Biography. Woman—Biography

Sketches of some eighteenth century Frenchwomen, some of them attached to the court and household of Louis XV, some creators of fashionable salons. Included among them are the sad and neglected queen, Marie Leczinska; four of the princesses, daughters of Louis XV; the Marquise de Pompadour and two of the earlier mistresses of the king; Adrienne Lecouvreur, the great tragic actress; and the salonnières Mme Geoffrin, the Marquise du Deffand, and Mlle de Lespinasse.

Six short stories which are in reality case studies of men and women suffering from sex abnormalities.

"Mr. Le Clercq's fine intelligence demands that his work be measured by a high standard. One reads this book with a deep interest in his interpretation of the individual lives and characters, but one's appreciation is marred by the weakness of his technique. With all his detachment from his subject, Mr. Le Clercq writes as for an unsophisticated audience demanding dotted i's and crossed t's; it is not the simplicity of Maupassant, it is the anxiety and uncertainty of an inexperienced teacher. And this gives one the false impression that there is less subtlety here than, in reality, there is. The style is conventional and at times awkward; words are strained, metaphors are forced. Mr. Le Clercq is sensitive to humor, the ironic, the grotesque; he is a more than thoughtful observer of life; he has a positive sympathy for man. And he will learn to write."

LE FRANC, MARIE. Whisper of a name [2] (Grand-Louis l'Innocent); tr. by George and Hilda Shively. 244p $2 Bobbs

28-23922

Suffering from a blow to her heart and pride, a woman of refinement withdraws from her world to a lonely old house on the Breton moor. She lives quite alone with only the wind and the moor for company. On a night of wind and storm Big Louis comes to the house. Eve's instinctive fear vanishes in the presence of this gentle, simple-minded giant. He becomes a daily visitor, and Eve discovers in him a love strong as her own for the Breton moor and coast. Between the two, the cultured Parisian and the huge derelict, who despite his clouded mind bears traces of gentility, there grows a rare sympathy which flowers into love.

LENANTON, C. Holiday. 311p $2 Appleton [7s 6d Unwin]

28-14547

Contrary to custom, a nice English father and daughter decide to take a holiday apart from one another: Colonel Ross-Preston goes on a fishing trip to Norwegian waters, Georgine to Scotland to look after the two schoolboy sons of a friend. The friend's brother, hero of Georgine's first romance, is to be at home on a visit from India. As the pleasantly exciting holiday passes, romance breaks out in several directions not even excepting the coast of Norway. Georgine and her father and her friends are charming people. Their story is full of good-humor.

There is nothing soul-stirring or nerve-racking about C. Three plays translated from the French. Each one is founded on some phase of the Freudian theory of the unconscious. Contents: The dream doctor; Man and his phantoms; The coward.

"What the reading of his plays confirms is that Lenormand has been a useful and a daring innovator in his application of psychology to play-making and that he brings to his method a bold and a subtle mind."

"M. Lenormand is a writer who uses with the highest distinction all the most important conventions, except the convention of verse, that were used by Shakespeare and other 'literary' dramatists, and whose texts in their printed form are works of art so nearly complete that, in thinking of them in relation to the theatre, one's fear is not that performance may fail to add enough to them, but that, through insubordination to the author's ideas, it may take too much away. The present translation, in spite of an awkwardness of phrase here and there, is generally fresh and intelligent."

LESLIE, DORIS. Fools in mortar. 339p $2 Century [7s 6d Hurst & B.]

Left unprotected from the sneers of society by the death of her father, Noel, his natural daughter, has a try at the stage and does fairly well. A married man, an author, is strongly drawn to her, and as the attachment grows, mutual hesitations are overcome and they become lovers. David's conscience begins to trouble him presently and he breaks off the affair, leaving Noel on her own again and desperate. Her cousin Dennis, the family heir and the only one who has been kind to her, asks her to marry him. Noel accepts, to find that she loves Dennis truly. With painful honesty she discloses her relations with David—and destroys Dennis's happiness and her own.

"The best of 'Fools in Mortar' are its character sketches of theatrical and artistic people —never penetrating much below the surface but surely and a little cynically faithful to those surfaces, pleasant or unpleasant. Miss Leslie's admirable detachment breaks down only in the last chapter, where she mixes up morality and honor with what reads very much like a scared attempt to salve an uneasy conscience."

It is dramatic, as an account of Swift should be; it gives an outline of the man who wrote 'Gulliver's Travels,' and it shows us how much of Swift's personal life went into that great fantasy. It gives us a new light by which to read 'Gulliver's Travels' and 'The Tale of a Tub' and certain of the poems. But Shane Leslie's departures from narrative into fancy and into fantasy are not well enough marked. "In this closely written, sharply imagined book, Mr. D. B. Wyndham Lewis has accomplished the first adequate English study of the life and work of one of the greatest lyric poets of the world. It will be exceedingly difficult for any successor to excel his 'documented survey' of Villon. . . The book is written with love, with anger, with irony, and even with laughter. The pages are fed with fine irrelevances that are really marrow of his matter, and with an invigorating criticism of life that forbids us to think that Villon is dust, and no more a brother." R. A. That is rich and ample; only a churlish mind could fail to extract much pleasure from it; but the embroidery is strikingly different in quality from the curt, prompt, steely words of Villon which cannot be subdued to Mr. Lewis's pattern, nor his pattern to them. This anthology for moderns omits the ingredients commonly found in Christmas mixtures—"extracts from Dickens, Pepys and Washington Irving, and reference to Father Christmas; also fake-Gothic carols (including Good King Wenceslas), robins, property Yule-logs, synthetic snow, red-faced jovial Squires," etc., and serves up, instead, entirely fresh materials ranging from the Saturnalia of Martial to Chesterton and Hilaire Belloc, including a rich selection of medievals and such festal things as recipes for lordly dishes, from the Arundel collection.

325.73 Immigration 28-6093

The book, written by a Chicago lawyer, is a defense of immigration restriction. The argument is based on a belief in the nation as a unit—the product of a united racial stock, not a melting-pot. It sets out to prove that immigrants of diverse races, if allowed to come in such numbers that for several generations they remain alien groups in our midst, threaten our political and social unity. Mr Lewis explains the quota legislation and analyzes the chief objections brought against it.

The main theme of this brilliant and provocative book is the ascendancy in the intellectual world of today of the time-idea, fathered by Bergson and elevated by Einstein, as space-time, into a cult. In Book I Mr Lewis analyzes the time-mind as it has manifested itself in fiction, poetry and painting, and especially in such writers as Ezra Pound, Gertrude Stein and James Joyce. LEWIS, WYNDHAM. Wild body: A soldier of humor, and other stories. 298p $2.50 Harcourt [7s 6d Chatto & W.]

In "A soldier of humour" and "Inferior religions" the author sets forth the theory of laughter which the stories in the book are designed to express: "The finest humour is the great play-shapes blown up or given off by the tragic corpse of life underneath the world of the camera. This futile, grotesque, and sometimes pretty spawn, is what in this book is snapshotted by the imagination."

"'The Wild Body' is both a brilliant and a disappointing book. The preamble to the first story and the essay on laughter which comes later lead us to expect something remarkable in the humorous style. "As a writer of fiction, Mr. Lewis is an exceptionally fine painter. Employing the method of behaviorism—which he reviles—and often resorting to the language of Freudianism—which he claims to detest—he somehow succeeds in drawing an extraordinarily vivid picture of the human animal; he makes a certain type of characters live as they never lived before. With this achievement his readers should be satisfied, and yet they will probably demand something more, feeling that characters alone do not make a novel or even a short story; they will demand that character should result in action, which in turn should influence character." "In the present book, he appears in two lights. He is a first-rate narrator of psychological short stories; and he is also, less fortunately, a theorist with an ax to grind. His ax is theory, not especially original, of the comic; and throughout his book he is periodically taking this out and giving it a polish, and then burying it again, or simply forgetting it in the pleasure of creation or observation for its own sake. This is the clever side of Mr. Lewis, and one cheerfully admits that it is clever." Conrad Aiken

This saga of a Jewish family begins in 1840, in Poland, where Reb Mendel ben Reb Jizchock taught children their Hebrew letters. Mendel's grandson, Jacob, emigrated to New York in the 70's and here the family rises to affluence. Jacob's son Arthur, graduates at Columbia, studies medicine, marries a Gentile and becomes a practising psychiatrist. But he cannot become an Americanized Jew and fuse himself with our civilization. He cannot disown his heritage and tradition. Finally, after an intense struggle within himself Arthur leaves his Christian-born wife and his children and goes on a Jewish mission to the Balkans.

From a perspective of ten years Captain Liddell Hart studies and passes verdict upon the generals who most influenced the course of the World war, sifting and weighing the evidence available, comparing various contemporary impressions and checking up in the light of the documentary records. Contents: Marshal Joffre; Erich von Falkenhayn; Marshal Gallieni; Haig of Bemersyde; Ferdinand Foch; Erich Ludendorff; Pétain; Allenby of Megiddo; Hunter Liggett; "Black Jack" Pershing.

"This newest novel by Mr. Lincoln, which is incidentally his thirtieth book, is not likely to add materially to his reputation. The action is laid in that happy hunting ground of the author, the Cape Cod country, but the story deals largely with its more sophisticated residents, and the salt tang and the quaint humor for which Lincoln's Cape Codders are famous is not as copiously present as in the author's earlier work."

LINCOLN, NATALIE SUMNER. Dancing silhouette. 278p $2 (7s 6d) Appleton 27-19893

Following a professional call in the home of old friends, Dr Joseph Kane is found dead beneath the window of the room he had occupied. Thereafter follows a maze of clues, the most important of which is the dancing silhouette, until Thorne, the famous detective, threads his way thru them all and finds the solution.

"The tension is well kept up. . . It is an interesting story which makes no pretension to be other than it is, a mystery novel of the type with which our bookshops are well stocked at the present time."

Peggy is to come into possession of her uncle's estate in Connecticut after she has lived at Yew Lodge for a month and a day. Alone with her servant, Julia, she therefore moves into the empty, lonely house, and there she remains in spite of the efforts of some one to frighten her away. Sudden apparitions, a murder, and to end up with, a secret chamber and snakes are a few of the terrors provided for her. A farmer neighbor and his step-son of the Navy run the criminal to earth.

LINDSAY, ALEXANDER DUNLOP, and others. Christianity and the present moral unrest. 255p $2 Oxford

261 Christianity. Church and social problems

"In the year 1924 British and American religious journals were intensely interested in Copec. Copec was the Conference on Politics, Economics, and Christianity, held that year in the city of Birmingham. It was one of the most representative gatherings and thoroughgoing discussions of ethical idealists in recent years. The present volume is an outcome of the Conference. Several writers, including the editor, discuss the fitness of Christianity to meet various modern moral problems, personal, industrial, and political."—Sat R of Lit

"Its pages are as innocuous as they are academic. To be perfectly frank, this is the sort of book that simply floors one with despair. Here are men who are masters of Christian knowledge. They write with beauty, insight, elevated sentiment and unquestionable authority. But after all their sober, learned and lofty argument they seem pathetically like Omar in the Rubaiyat."

Three lectures by the editor of the New York World, delivered at the University of Virginia on the Barbour-Page foundation. The subject of the lectures is the predicament of the modern teacher under popular government during a period of conflict between fundamentalism and modernism in religion and between tradition and science in history. 176.5 Prostitution 28-12983

The bulk of the White slave traffic takes the road to Buenos Ayres. The author followed the road from the ports of France, drawing from procurers and prostitutes alike the unadorned story of their share in the colossal commerce. He reports these stories conversationally, unemotionally and without moralizing, finding that prostitution rests on the economic necessity of the woman. In the very last line, he makes his charge. "This is an extremely well written book in a typical, rather cynical, French style. But in regard to two points, rather serious objection can be taken to it. The writer insists that in eighty per cent. of cases of 'white slavery' it is sheer economic necessity which drives the women to this means of livelihood, and he almost suggests that their action in thus helping to provide for their families at home is positively meritorious. The League investigations certainly do not bear out the suggestion that economic considerations are prominent to anything like this degree, and the book is to this extent distinctly misleading. Further, the writer derides the League's investigations which he is, of course, entitled to do if his facts are accurate, but they are not."

LOOMIS, ALFRED FULLERTON. Sea legs. 264p il $2 (5s) Appleton

Navigation—Juvenile literature 27-23858

Two boys from the Middle West, Thad Putnam and Chuck Williams, were spending the summer on the Atlantic coast. Altho they knew nothing about seamanship they succeeded in saving a yacht which was anchored too near a reef, and as a result won a sea trip. In company with an old sailor they sailed the yacht to Maine, learning about navigation and having exciting adventures all the way. The book is provided with illustrations and diagrams drawn by an expert.

"Alfred Loomis knows his yawl, and his boys, and he does a perfectly charming story of the adventures of Thad and Chuck under the tutelage of Jem Adams. Mr. Loomis has gone a step or so beyond making a story that will appeal to boys. It is really an excellent guide in the fascinating sport of sailing like a sailor, and of doing things on board ship in a seamanlike and effective way. The older yachtsman may find in its pages a great deal of very valuable information."

B or 92 Colvin, Sir Sidney. Colvin, Frances Fetherstonhaugh (Sitwell), lady. Authors—Correspondence, reminiscences, etc.

Sir Sidney Colvin, the friend of many writers and artists—Stevenson, Henley, Burne-Jones, George Meredith, Henry James, Joseph Conrad —married one of the most delightful women of his time, endowed like himself with a genius for friendship. Naturally, the book is rich in memories of Stevenson, who inspired Colvin with the principal literary devotion of his life and Lady Colvin, then Mrs Sitwell, to the utmost of her capacity to sympathize and stimulate.

"The personal touch is too much lacking; there is in the subject matter of the book a superficiality that makes it seem a survival from pre-Ludwig days. Yet Mr. Lucas may not properly be held responsible for these omissions, since he has not so much attempted a biography of the man as an assembling of Colvin's correspondence. The book is a skilfully arranged register of achievement and is less ponderous than most works of its kind. It is none the less a commentary on this formal variety of biography." G. T. Hellman

225.5 Bible. New Testament—Criticism, interpretation, etc. Bible. New Testament—Versions. Preaching 28-8773

"The author has capitalized the homiletical values of the translations of the New Testament by Doctors Moffatt, Goodspeed, and Weymouth. Most preachers have wished that they had time to read these translations through with a view to their use in preaching. We all have been startled and at times illumined by

the suggestiveness of their fresh and poignant rendering. Dr. Luccock has picked out from the general mass of new renderings those which struck him most forcibly. Fortunately, in this volume he does not try to write sermons for us. He makes a dash into the general field of the text's meaning as though one ran through an open gate, careered swiftly around the premises upon the other side and came out again saying, 'You see that quite a sizable and fertile acreage is there if you wish to explore and cultivate it.' "—Christian Century

"Ludwig's story of Jesus, as might have been anticipated from his stories of other men, belongs to the imaginative school of biography. It classifies with Farrar rather than with Schmidt, or even with Renan. This point established, it may be said that Ludwig's book is by all odds the ablest work of the kind that has been written. An example of an essentially inferior type of biography, it so far excels its competitors of this type as almost to stand in a class by itself. In two conspicuous respects, the one negative and the other positive, it is admirable." J: H. Holmes

"As an impressionistic biographer, he wields a masterly pen. Had first-hand documents been here available we doubtless should have had from him one of those soul-studies of great men which have made him famous. In this case, the first-hand documents were lacking, and their place could be only supplied by such minute and careful documentary analysis and comparison as only the expert could supply. Ludwig is probably not altogether ignorant of these elaborate studies in the origin and interrelation of the Gospels, but he has chosen to leave them half-read, and to exercise his psychological imagination. It is a good imagination when it works on first-hand material. When the basis is unsifted tradition, the result only rises above the level of imaginative paraphrase by virtue of the writer's facile ingenuity." B. W. Bacon

"Dr. Ludwig indicates at the outset that he does not believe in the divinity of Christ. This preconception would not vitiate in any way the work of a historian who proposed to confine himself entirely to an examination of the historical data; his book, if it were well done, might be of great value to Christians and non-Christians alike—as Renan's was and is. But when, having announced his personal view, the author proceeds to offer an entirely imaginary picture of the inner psychology of Jesus,

his work necessarily becomes quite worthless from the standpoint of those who do not share that view and deny his major premise. We are inclined to predict a falling-off of Dr. Ludwig's sales and royalties in future, both in England and in America, which will not be balanced by the sum accruing from the sales of this worse than worthless piece of 'psychological analysis.' "

"On the whole, the story is sympathetically told, with a close adherence to the New Testament records. The book is wholly free from anything like the lurid and repulsive imaginings of Henri Barbusse. The pictures of cities and villages, the desert and the lake are well painted. Ludwig has borrowed skillfully from contemporary writings about Palestine and Rome. When we come to his interpretation of the character of Jesus, we are likely to find Ludwig's work less satisfactory." C: Johnston

"Ludwig's whole treatment partakes of the theatrical. It is all for the eye, nothing for the heart. It is a highly colored film. Merely as a matter of style, this continuous use of the historical present tense grows fatiguing. The book is beautifully gotten up, with fifteen illustrations after Rembrandt, but the meaning of Jesus' career as it moves towards its world-mastering climax is travestied." A. N. Wilder

"It is another in that long line of *Leben Jesu, Vie de Jesus*. Dr. Ludwig's study occupies an honourable place in the series. He deals very fairly with the documents; though he leaves out some things which should find a place. But his sense of psychology makes him a shrewder critic than many a professor bemused by the problems of the study, and tied to documental fantasies. . . Dr. Ludwig has furnished one more proof that the historic Jesus can only be reconstructed by accepting His unique and dominating claim. The honesty with which Dr. Ludwig accepts the facts only makes the central point more luminous. The story cannot end with the burial. Dr. Ludwig says we are too much influenced by modern pictures. He does not himself escape. The 'gentle Jesus' with the neatly parted hair of Hoffmann's pictures is not the Jesus of history. This interpretation implies a theology, and it is rendered suspicious by the claim that it 'aspires, at least, to be in harmony with the spirit of our own time.' " A. S. Duncan-Jones

"Just as he completely omits any study of the teaching of Jesus, on the ground that it is too familiar to need exposition, and so deprives his portrait of Jesus of any inward convincingness, so his conception of the psychological development of Jesus is too simple and schematic to have real substance. Elsewhere Herr Ludwig has announced that his method in biography is 'to live himself into his subject.' Had he done so on this occasion we do not think he would have dared to write: 'his intelligence is darkened.' "

Booklist 25:26 O '28

"Dr. Johnson and Company introduces one easily and gracefully to the uncouth old autocrat and his companions. The book is a skillful piece of impressionism, and though it relies largely upon its immortal source, it recreates freshly the strange appeal of Dr. Johnson's contradictory character. . . He sets the drama of the two men's lives in the society of our times, describes their childhood in Italy, their emigration to America, their activities in labor struggles, their arrest, trial and execution.

"If this novel leaves us with a definite feeling of depression, the fault is not the author's. She has continually begged us to laugh. Often tears press close behind the heartiest laughter. We feel more stirred by what is implied in this novel than by what is stated. One must have high courage to write such a book. We wish that the author's remarkable literary gifts might some day come into closer union (in public, at least) with two qualities she carefully conceals—true sentiment and a very warm heart." D. F. "It is well constructed and wittily written, the unavoidable crisis of hybridity is cleverly worked out. Yet this, if any novel, deserves to be called unpleasant, and the problem of what is wrong with it is almost as fascinating as the appreciation of what is right. The explanation is that the attitude of the author is provincial, and the style, occasionally brilliant, is more than occasionally pert. As the reader goes on with the book the terms 'high-brow' and 'low-brow' occur with an ever increasing frequency, the hero and his family are the one, the heroine and hers the other, supremely high-brow appears the author, but the reader has a shady and treacherous inclination towards the low. A very witty and stimulating book, based on a good idea and winged with a fleet of smaller ones, well constructed and admirably readable. After the average novel it comes as a delight—after a really good novel it appears a pretentious but elusive example of the *faux bon*." Cyril Connolly

MCCLURE, MRS MARJORIE (BARKLEY). Many waters. 305p $2 Minton

28-21481

A highly emotional novel concerned with the development from childhood of beautiful Rosalind Karanoff. Thru the eyes of a devoted governess-companion, who enters the Karanoff household when Rosalind is four, the Karanoff family materializes—beautiful, mysterious Terry Karanoff, the mother, the stern financier father, Rosalind and the baby Nico. There is a vaguely sensed mystery in the feud between the Karanoff family and the family of Dr Field which is held suspended in air until Rosalind is eighteen and falls in love with young Norris Field. Then the crash comes, but when the "tumult and the shouting dies" there is hope for peace for harassed souls.

" 'Many Waters' leaves the impression of belonging completely to an earlier generation. Not all the modern incidentals—Montana paper mills, airplanes, New York stage celebrities, and Yale men in raccoon coats—can deflect the main course of the story from its familiar channel. The pity is that it retains only a faint flavor and not the body of its venerable predecessors."

28-21578

Clark Gardner is introduced to Chérie Kalb by his wife. The Gardners are living in Paris while Clark has business there. Chérie Kalb is something of a sculptress and has a studio of her own. At first she repulses Clark. He sees her as an extraordinarily attractive woman, but cold, calculating, ready to sell her charms to the highest bidder. As friendship grows between them, however, this unwilling admiration yields to love. The story is a study of Chérie's character as revealed to Clark thru his love for her, and a study of the problem of their love.

" 'Lady in Marble' can be safely recommended as a 'train novel.' Those who are making a hot journey into the country might forget their discomforts for two or three hours in speculation as to what will become of the blond and incorrigible Chérie. Like a glass of iced tea or an ice cream soda in mid-afternoon 'Lady in Marble' is a palatable filler-in." V. P. Ross

"There have been earlier biographies of Rhodes; but the best of them, with the exception of Mr. Basil Williams' book, have been written by men too close to him, in circumstances which inevitably tended to make them partisan. His latest biographer, one of the fast diminishing band of Rhodes's personal friends, was associated with him in Rhodesia and elsewhere in the last twelve years of his life, and worked in close, but not too close, contact with him; he accompanied Rhodes on his famous expedition to make peace with the Matabele chiefs in the Matopo hills. She traces the development of the Catholic Social Guild and in a special chapter gives a good account of Catholic influence in the movement for world peace."—R of Rs

MACFALL, HALDANE. Aubrey Beardsley; the clown, the harlequin, the pierrot of his age. 270p il $6 Simon & Schuster

B or 92 Beardsley, Aubrey Vincent 28-2557

"Aubrey Beardsley died in 1898 at the age of twenty-five, his career at the approximate age of six, an artist of world distinction, a symbol, in spite of himself, of England's Yellow Nineties; or, rather, half a symbol, Oscar Wilde, whom he detested, constituting the other half. Haldane Macfall has written a biography and an appraisal. Aubrey Beardsley was pre-eminently an artist. Mr. Macfall's pre-eminent service, as his biographer, consists in the charting of Beardsley's artistic development, from medium to medium, almost from month to month. It is the most ambitious book so far published on Beardsley, for aside from a few essays, notably one by Arthur Symons, and a monograph written by Robert Ross nothing has been attempted. Biographically Mr. Macfall's book is rather disappointing; but as a study of the swift unfolding of Beardsley's artistic powers, as a careful inquiry into his derivations and the shaping of his art through his borrowings, the book is excellent. Jones, John Paul—Fiction 28-5166

John Paul, the Scotchman, later known as John Paul Jones, American naval hero, loved Ann Derbyshire. Ann, the daughter of an English bookseller, was much opposed to the slave trade in which John Paul was concerned. So John Paul went his way alone and Ann married a merchant. Years later John Paul Jones happened into the port where Ann's husband had a stalwart ship. And the American hero had his revenge, which was in reality no revenge at all.

MCKAY, CLAUDE. Home to Harlem. 340p $2.50 (7s 6d) Harper
28-6523

Jake Brown drifts home from France to Harlem via England. Harlem is his happy hunting ground for liquor, laughter and love. On Jake's first night home he meets a little brown girl at the Baltimore cabaret. He loses her in the morning, and searches for her intermittently in all the recesses of Harlem night life, until he finds her again. The story has little plot, but gives authentic pictures of the Negro's own happyland in New York.

"Despite the fact that this book is badly written, it is both interesting and valuable. Its crudities of form and its lack of fine writing make it distinctly second rate as a novel; as a social document it has its place." D. L Hunt
+ — Ann Am Acad 140:339 N '28 480w

" 'Home to Harlem' is a book to invoke pity and terror, which is the function of tragedy, and to that extent—that very great extent—it is beautiful. The language of 'Home to Harlem', whether Mr. McKay is setting forth dialogue in a perfect transcription of Negro slang and dialect or is telling his story in the Negro idiom, is a constant joy. Mr. McKay is not at all solicitous toward his reader. He makes no case, he pleads no cause, he asks no extenuation and he doesn't explain his idiomatic phrases. There is no glossary at the end of the book as there was to Carl Van Vechtens' 'Nigger Heaven'; and the unsophisticated happily will read whole pages of this novel depicting the utmost moral degradation without even knowing what it is about. And this is just as well." Burton Rascoe

Bookm 67:183 Ap '28 900w

"Here is realism, stark, awful but somehow beautiful. McKay has left no stone unturned, no detail unmentioned in this telling of things as they are. Yet he has told many of the most sordid truths with the same simplicity that a child tells its mother this or that thing has happened. He has touched many ugly and jagged contours with a naïveté that is surprising. There is no lewdness in his uncovering unpleasant secrets about his people. With sensual accuracy his characters move through the smells, the color, the taste of dark-eyed Harlem, touching life with warm, brown hands." G. B. Bennett

"Mr. Compton Mackenzie finds it necessary to intrude himself frequently into the chronicle to tell you what a frightfully daring subject he has chosen. But really, he excites himself unduly. That theme has grown hackneyed in recent years. And any latent electricity it might contain is quite thoroughly insulated by enveloping billows of Mr. Mackenzie's distinguished but increasingly plushy verbiage."

N Y Times p16 S 16 '28 700w

"Compton Mackenzie, by choosing burlesque for his method, handles his subject in exactly the right way. The book is clever, full of epigram and witticism, written with the indolent grace which characterizes Mackenzie's best work, and some of the characters and many of the scenes are very funny. In spots it hangs a little heavy."

"Seen in bulk and in retrospect, these women seem infinitely dreary, vicious, and worthless. So no doubt Mr. Mackenzie means them to appear; but his satire is shot with sympathy; he sees the funny and the pathetic as well as the squalid side of these unhappy creatures, and his picture is on the whole sufficiently gay, light-hearted and impudent to deserve that relaxation of criticism which Charles Lamb claimed for certain artificial comedies. Those who can stand its subject may find a good deal of amusement in 'Extraordinary Women.'" L. P. Hartley

The title, 'The Golden Book,' however, is unfortunate. It may seem to imply that the author presents his work as a perfect example of bookmaking, whereas he is merely giving the history of the struggle of scribes, illuminators and printers toward an ideal which the title indicates. Even though the cover, drawn by Mr. McMurtrie, is a fine, showy design and does credit to his versatility, the book does not quite live up to the expectation of its title. MADARIAGA, SALVADOR DE. Englishmen, Frenchmen, Spaniards; an essay in comparative psychology; with a prefatory note by Alfred Zimmern. 256p $3.75 (12s 6d) Oxford

914 National characteristics, English. National characteristics, French. National characteristics, Spanish 28-25369

"The book rests upon the theory that the outstanding characteristics of the three nationalities under discussion may be thus summarized: Englishmen are men of action, Frenchmen are men of thought and Spaniards men of passion. Or, to state the argument in other words; in the Englishmen the body rules; in the Frenchman the mind, and in the Spaniard the soul. The first part of the book is devoted to a closely reasoned argument for this central theory, which is set forth again by Senor Madariaga when he declares that three entirely untranslatable terms symbolize the systems of the three peoples: for the Englishman *fair play;* for the Frenchman *le droit,* and for the Spaniard *el honor.*"—Books (N Y Herald Tribune)

"This book which has for its primary purpose better international understanding, is brilliantly written, cogently reasoned and thoroughly provocative. . . I have called Senor Madariaga's book provocative because I do not believe that every one who reads it will put it down completely convinced. By his own refreshing lack of dogmatism he has left the field open for friendly differences of opinion. But I do not believe that any careful reader of the book can dismiss his thesis: certainly I do not believe that any one will deny the skill with which he has handled it." Herschel Brickell

"It is an intelligent book, and Mr. Madariaga's considerable knowledge of Britain, France, and Spain enables him to say many interesting things about their inhabitants. Yet even he does not escape the snares and pitfalls of his subject. The snares are the half-truths and quarter-truths which impudently masquerade as the whole truth; the pitfalls are generalizations about Englishmen, Frenchmen and Spaniards which, in fact, are only true of some Englishmen, Frenchmen, and Spaniards. . . His theory that the Englishman is a man of action, the Frenchman a man of thought, and the Spaniard a man of passion is much too simple and sweeping, and his effort to apply it as a universal application leads him often into absurdities." Margaret Harran is so devoted to the green willow tree that after her death the tree becomes to Margaret's children a symbol of their idolized mother. As such the willow has a definite influence on their lives. Yet to Michael as to Lynette the influence is antagonistic, restraining, a barrier to freedom in their lives. Michael makes a disastrous marriage, and Lynette just escapes a liaison with a married man. Thruout the story of these young English moderns there recurs the note of romantic mysticism symbolized in the green willow.

The unpleasant Kneebone household consists of a silly, scolding, blowsy mother; a pleasant, dishonest father and their four children—the older two belonging to Mrs. Kneebone's first marriage. MANTLE, BURNS, ed. Best plays of 1927-28; and, The year book of the drama in America. 588p il $3 Dodd

808.2 Drama—Collections. Theater—Yearbooks (20-21432)

After a swift view of the theatrical season in New York, Chicago, San Francisco and Southern Californa the following ten plays are excerpted: Strange interlude; The royal family; Burlesque; Coquette; Behold the bridegroom; Porgy; Paris bound; Escape; The racket; The plough and the stars. There follows the discussion of the plays and their authors, a list and statistics of plays produced in New York, 1927-28, a chapter on the Little theater tournament, and indexes.

It is his inclusion of the full casts for each production of the year, the number of the performances each play has achieved, the date on which it opened and the theater at which it played, [etc.] . . . that makes it indispensable both for the worker in the theater, and the out-of-town playgoer who wants to keep up with what he may not have had the chance to see."

MANTOUX, PAUL JOSEPH. Industrial revolution in the eighteenth century; an outline of the beginnings of the modern factory system in England; rev. ed.; tr. by Marjorie Vernon. 539p $5 Harcourt [16s J. Cape]

331 Industrial revolution. Great Britain—Economic conditions

"When first published more than twenty years ago, this work was the first comprehensive survey of the transformation effected in England by the rise of the factory system, a movement the consequences of which have affected the whole world and are still changing it. Further, it was directed to calling attention to a comparatively neglected realm of research. In the interval extensive investigations have been carried out in the field, and for this first appearance of his famous work in English the author —who will be identified as Captain Mantoux, the interpreter at the Paris Peace Conference, now an official of the League of Nations—has corrected and completed his picture by means of the new information available. The translation, by Mrs. R. V. Vernon, has been done under the author's supervision."—Publisher's note

MARCH, JOSEPH MONCURE. The set-up. 184p $2 Covici

"Somebody has said that this rhymed story of a negro prize fighter is half-way between John Masefield and Ernest Hemingway. That is rather inaccurate, but I see what he means. He means the Hemingway who kidney-punches our respectability rather than Hemingway the artist; he means the two-fisted narrative cussing of parts of the Everlasting Mercy rather than Masefield the poet. . . The story itself doesn't matter much—a simple bloody affair in which the negro double-crosses his managers and wins after all. The fun of it (and a lot of it is rare good fun) is in the telling."—N Y Evening Post

"Defects are lost sight of in the sense of speed created by the jerky, jazzy rhythm of the syncopated verse. And what life it has! What salty dialogue! What sense of punch and power! Once it gets under way, the story has the driving force of a piston rod." R. N. Linscott

There is life and rumble in it—though, like so many slang and gutter narratives, it would be better if the author kept out of the picture. . . The chief fault I have to find with 'The Set-Up' is an old one; toughness defeats itself; too much rough language piled on with a steam shovel soon gets tame; unrelieved cussing, after a while, begins to perspire freely itself without getting us into a corresponding lather." But it is neither his language nor its speed that makes Mr. March a writer of proportion. It is, first and last, his power of propulsion. . . Here, at least, the voice of the streets, raucous, high-pitched, incisive, has found utterance. And who, denying it beauty, will deny it eloquence?" L: Untermeyer

---

"I am inclined to believe that this narrative poem of New York night-life is one of the most interesting pieces of verse of the year. . . It is true that Mr. March writes like a very young man. At moments, we think that his characters are the banal types of melodrama. Then we see that, despite the banality of the language in which he sometimes describes them, they are the creations of a genuine poetic imagination working upon the results of a fresh first-hand observation of human behavior." Edmund Wilson

+ New Repub 56:182 O 3 '28 1000w

"The poem is amazingly direct and vivid. The whole thing runs with the slickness of a first rate American crook play, it is averagely written and admirably produced; there is no lyrical quality in the verse, which at times falls to the level of the shooting of Dan McGrew, and at times rises to a kind of steely beauty as the evening grows more squalid, the lights lower and the passions higher in the dingy service flat." Cyril Connolly

+ New Statesman 32:257 D 1 '28 500w

"If Mr. March has borrowed a color sense from Masefield and a sense of speed and a kind of muscularity, he has repaid with interest. For, on the whole, this is a more exciting poem than 'The Everlasting Mercy,' and more interestingly done, and psychologically truer. For the most part the thing is unrelieved tragedy, and tragedy made all the more effective for being cast in the raciest of vaudeville idioms. It is horrible, inescapable, ugly beyond belief, a nightmare of a poem. And it goes like a motor." Conrad Aiken

+ N Y Evening Post p13 Ap 28 '28 800w

"The execution is extremely clever and the narrative is sustained with a vitality and a speed which never for a moment flags. Realistically, too, it may be true to life, but a picture of life in which sexual squalor is neither relieved nor measured by any element of human fineness is artistically valueless."

" 'The Roman Catholic Church in the Modern State' is scholarly and to a very large extent impartial. The treatment of the Catholic doctrine and practice concerning marriage and annulments is neither accurate nor just. From time to time also the author overstresses the emotional. Apart, however, from minor defects, due no doubt to the haste with which the book must have been written, Mr. Marshall has produced a valuable study of the political theories of Catholicism." E. B. "As a study of the source and rise of the Papal sovereignty the value of his first chapters is not to be denied. They are the work of a patient scholar whose mistake it has been to drag into his study personal doubts and fears. As it is, one cannot but note the time at which they are expressed—immediately after a rather unfortunate, though well-intentioned, article meant for the eye of a Catholic executive who aspires to the presidency, and just before a national election." 923.2 Statesmen. European war, 1914-1918—Biography 28-25068

From a perspective of ten years the author, foreign editor of the Journal de Genève, studies the outstanding personalities of the war, their character, motives and influence on events, and the permanence of their place in history. Contents: William II; Francis-Joseph; Nicholas II; Pachitch; Von Bethmann-Hollweg; Count Tisza; Poincaré; Lord Grey; Cardinal Mercier; Baron Sonnino; Venizelos; Jon Bratiano; Asquith; Briand; Hoover; Gustave Ador; President Wilson; Colonel House; Count Czernin; President Masaryk and Dr Bénès; Pilsudski and Paderewski; Lloyd George; Clémenceau.

"This is an extraordinary book. Brilliantly epigrammatic, it is neither smart nor melodramatic. In all except two or three sketches it shows a penetrating understanding of underlying forces. For those who know little of the Europe of the twentieth century it may be startling; for those who know much of pre-war and post-war politics it offers challenging and suggestive interpretations of the statesmen who loomed large in the eyes of their contemporaries a decade ago." Gracián goes from school in Cordova to visit Black Valley, the home of Don Jesús, his new guardian. In this forbidding yet fascinating place Gracián plays happily with Mirra, his guardian's daughter, and falls boyishly in love with Mirra's Aunt Flavia, a beautiful, mysterious woman whose dark romance is the center of the story's plot. The tragedy which grows out of their secret relations spreads its pall over Mirra, Gracián, and Victoria.

As in Black Valley the story is laid among the mountain farmlands of the Argentine. Marcela goes with her father and brothers to live in the mountains on her uncle's ranch. Though city-bred the girl loves the hardy new life, and gradually steps into the position of overseer of the badly mismanaged estate. An outlaw meets her in the hills one day and makes up his mind to win her. His only rival is a shy youth from a neighboring farm whom Marcela considers beneath her. But Willa understood the language of the animals, and so she whiled away her time very enjoyably, even during the great forest fire when they all went to live in caves by the river. And as a special reward the trader rat took her to see the fossil fountain, which was really for "animals only."

575 Evolution 28-12912

Scientists in every field of research pertaining to the origin and development of the forms of life on the earth, have contributed papers to this volume. It forms a symposium of the evidence of creation by evolution as supplied by biology, geology, palaeontology and kindred sciences. The articles are addressed to the intelligent layman, and are graphically illustrated.

"The essays, without being inaccurate, are brief, inadequate, and written down to the level of a relatively illiterate audience. The editorial work is not competently done: there is a considerable amount of unnecessary repetition. The book-making is fair; the index is adequate." E. B. Reuter

901 Europe—Civilization. Civilization. Civilization, Oriental 28-4080

The thesis of this gloomy view of European civilization is that the East is making a determined assault on the Latin inheritance and undermining the West with its mysticism and fatalism. The allies of this Eastern menace are the Germans and the Russians both of which peoples, M. Massis maintains, have a remarkable affinity with the East. Gandhi and Tagore are helping the orientalizing process. The chief hope for civilization is the Roman Catholic Church, which is represented as the one incorruptably western institution still surviving and the "sole power capable of restoring true civilization."

MASTERS, EDGAR LEE. Jack Kelso. 264p $2.50 (10s 6d) Appleton
812 28-17028

The central figure of this dramatic poem is Jack Kelso, friend and companion of Abraham Lincoln in New Salem, Illinois, who is said to have taught Lincoln his love of literature. Kelso is a dreamer and wastrel who lives on, a very old man, into the second decade of this century. Always he is an embittered critic of life and it is thru his jaundiced eyes that the drift of American history is unfolded for seventy years and more.

"Edgar Lee Masters does not quite strike twelve in his ambitious dramatic poem. . . The device of depicting the high points in a series of great movements from the point of view of a minor character—a sort of worm's eye view of history—is not, in itself, a bad device. The defect, in so far as there is defect, is not in Jack Kelso but in Masters. His criticisms, often bitingly true, are often cynically hard, and the verse itself, on its mere mechanical side, moves lumberingly."

"One of the most extraordinary human documents that ever fell to the lot of a reviewer. Purporting to be the epic history of 'a poet and wanderer with the dimensions of a universal character,' it is, with apologies to the shades of the well beloved 'Spoon River Anthology,' a stodgy narrative, stodgy as unrisen dough, and pathetically ludicrous in spots. Had Masters attempted the whole story in free verse it would have attained more dignity and force. As it is the continual (any many times inartistic) rhyming, cheapens the quality of the tale." The value of these men's art in terms of influence, or even its individual relation to art in general, cannot be determined now by conjecture; and anything stronger than conjecture is proportionately more dubious. This is not Mr. Mather's fault. The fault, if any, lies in having extended the scope of his analysis beyond a point where critical appraisal of any finality is humanly possible. By the reduction of the dimensions of all physical phenomena to those of four-dimensional space, I was able to express everything geometrically; by the invention of the etherial unit, the etherion, it became possible to correlate every electrical or magnetic thing with its mechanical and geometrical equivalent; and also by postulating that one of the coordinates of space-time was the psychical coordinate, and that one of the components of motion in the vortex was the psychical component, the electrons being psychons, it became possible to begin the process of connecting the psychical with its material equivalent."—Preface

"Day of fortune" is the story of a Norwegian family in America. Mary Aasen was seven when her father sent for the family to join him in Chicago and there later she married Knut Chezness. The story is hers and her children's. Especially it is the story of her son Peter, his dreams and disappointments, his numerous jobs and his as numerous girls. There is almost no plot.

MAURIAC, FRANÇOIS. Thérèse; [tr. by Eric Sutton]. 208p $2.50 Boni & Liveright [6s Secker] 28-14827

A complete unfolding of the mind of a neurotic woman. In the opening scene Thérèse leaves court acquitted of poisoning her husband. It is his testimony which has saved her. On the way to the family estate near Bordeaux, Thérèse explores her mind back to childhood, searching an explanation of the deed to offer her husband. That explanation is never given; for the family decrees that Thérèse must live the life of a recluse, in the eyes of the community, a little mad.

"In the hands of a less skilful writer, Thérèse might have seemed either monstrous or absurd Mauriac has made her real in every gesture: very simply and impersonally and with a marvellous economy of detail, he has lifted her rather sordid story to the scale of fine tragedy." Rose Lee

The story of an adventurous ride in a remade locomotive which little Peter took at the invitation of old Nels who did the remaking. For four days and nights Peter and his dog companion in old engine 44 rushed their way

across the continent to San Francisco and back with a story of good deeds done to tell to old Nels.

MELLETT, BERTHE (KNATVOLD) (MRS LOWELL MELLETT). Ellington brat. 340p $2 Dodd
28-1279

The Ellington brat is a poor little rich girl who has seen money buy so much that she believes it will buy anything. She grows increasingly cynical as she finds it does buy immunity for anything she chooses to do. In the intervals between attempts to rescue her cousin Betty from the consequences of rash acts, Loretta thinks of new ways to test her own immunity. On the rare occasions when they meet, David, who first called her "the Ellington brat," makes strong efforts to change her, but without effect. After giving her a thoroughly bad time thru her own high-handedness, the book leaves her crushed and without immediate hope.

"Berthe Mellet has made of this trite theme, something decidedly better than the average. She clothes banalities and saccharine observations with a style that wins the reader to acceptance. The editor stated that the originals were sold among Conway's effects, after his suicide in America, and bought by an American lady by whom they were 'lent to a gentleman with permission to take copies, and use them as he might think fit.' The lady's name is given as Ellet. . . Mr. Merritt is in the good company of those who have 'fallen for' Mrs. Piozzi; and he has long hunted for confirmation of his belief that these letters are fraudulent. It now appears that the traducer was exposed so long ago as 1862, and that by Mrs. Ellet herself in the columns of the *Athenaeum*. 28-16043

Spring darkness, the English title of the book, carries a suggestion of the theme, the adolescent groping of a boy befogged in his first love affair. The scene is lower middle-class suburban London. Looming over the love making of seventeen year old Kenneth and beautiful blind Vera is the figure of Vera's mother, a religious fanatic. The girl herself is passionate, ill-balanced, and Kenneth's long, painful infatuation for her ends as it is bound to end, in despair.

"This book is sincere, and has sound workmanship in the creation of a character. Mr. Metcalfe knows his London suburbs and their indigenous, human fauna, and he has written an original love story, the episodes of which are spun out of good psychological stuff. Yet the book leaves on the mind 'a sort of peculiar confusion,' to quote the author's own words. . . A singular sense of quiet and reticence sets apart this story of a young girl's love. The interest centers in two sisters, Claire and Gilda, and their elder brother Morely, with whom Claire, on her father's death, goes to live. Gilda is a charming woman of the world whom a secret disturbing love affair had kept from early marriage. Contrasted with her is Claire, "the girl adoring" to whom love comes suddenly and radiantly as a star in a clear sky. "Out of the ghoulish legend of the Golem, out of bestial hatreds, unendurable miseries, and villainy in the ghetto of Prague, out of the fundamental properties of sinister mystery—secret passages, apparitions, black sorcery—Gustav Meyrink has created a phantasmagoria of horror. The plot becomes irritatingly muddled at intervals but at the end one sees that there is a definite pattern. MICHAUD, REGIS. American novel to-day; a social and psychological study. 293p $2.50 Little

813 American fiction—History and criticism 28-940

A French critic studies contemporary American fiction from the viewpoint of the Freudian psychology. Beginning with a chapter on the "case against the Puritans" he continues the indictment to the end, showing American novelists from Hawthorne, thru Henry James, William Dean Howells and Edith Wharton and the younger American writers, obsessed by the problems of Puritan inhibitions and their influence on human conduct.

MILLAY, EDNA ST VINCENT. Buck in the snow, & other poems. 69p $2 (5s) Harper

A collection of lyrics and sonnets written by Miss Millay since 1924.

Booklist 25:113 D '28

"[Miss Millay] would be a finer poet if she were a less brilliant writer. By nature she is gifted with exceptional and alert sensibilities and with an expressiveness far beyond the average. [But] she takes her sensibilities for what they are and her expressiveness for what it may be worth and exploits them without reflection and without control. The result could hardly be distinguished poetry. One is pleased by fine perception and by fine phrases but almost wholly unrewarded by severe, concentrated and unforgettable poems." Newton Arvin
+ — Books (N Y Herald Tribune) p5 O 7 '28 1000w

"Miss Millay wonders much and sorrows more throughout the length and breadth of her new volume. The volume is thin, and in it she loses much and gains somewhat. She has been losing, during her lyrical career, some of the joyousness of the lusty, confident and intuitive lore of her youth. Now she is plucking dolefully, occasionally grandly, upon the minor strings. Emotionally, she slumps. A glow and a warmth in most are wanting. Technically, she has exerted and achieved. Intellectually, she continues to stimulate. Best of all we are again conscious with Miss Millay of the enduring beauty and satisfaction of song." M. E. MacDowell
— + Boston Transcript p3 D 22 '28 1700w

"It seems to be fashionable to find Edna Millay's new volume a trifle disappointing. . . The trouble is that Edna Millay remained silent long enough to become a myth in a pigeonhole. Her real speech resumed lets us down a little by the very fact of being real. We expected her to speak, if she spoke again, with

tongues of angels, or dryads, or something of that supernal and fixed order, but she speaks with her own tongue. Indeed, I think she speaks rather more with her own tongue now than before. It is warmer poetry. There is more passion and less wit in these larger and freer rhythms. There are more thoughts, and perhaps not quite so many bright ideas. To me it means that Edna Millay has grown, and grown in the direction of my admiration." Max Eastman
+ Nation 127:sup628 D 5 '28 620w

"How is it that this latest volume, which shows her instrument tuned to no strange key, her throat still musical, is a disappointment? The secret of the trouble seems to be that the poet has already said so perfectly all that she had to say, that now her utterance is redundant. Furthermore, one can match most of the lyrics in this book with previous lyrics of hers, and find alas! that the earlier ones were more sharply expressed. Her fervor is undiminished. Not so, unfortunately, her power of conveying it. . . Miss Millay has taught her audience to expect a packed simplicity of speech that is not present here, and it is in falling short of her own previous achievement that she fails her most devoted readers." "The rich sonority of 'Renascence' and 'Second April,' has dwindled to a music that no longer celebrates eager dawn or headlong day but is tuned, with wry resignation, to the beginning of evening. Never has Miss Millay plucked so insistently on the autumnal string. . . But there is something here that will surprise Miss Millay's admirers and interest her fellow-craftsmen. And that is Miss Millay's experiments in a (for her) new technique. The most obvious of these is the lengthening and increased flexibility of her line. No longer confined to tight couplets and casual quatrains, the lyricist has achieved an unusual set of suspensions and cadences by combining free verse and, occasionally, prose rhythms with balanced measures. Rhyme is dropped into these passages like an unexpected largesse. The result is a delightful—and definite—accomplishment." L: Untermeyer

MILLS, MARTIN. Madeleine heritage. 404p $2.50 Bobbs
28-7754

"His story relates that sometime in the seventeenth century young Simon Montford seduced and subsequently married Madeleine du Rémy des Baux. This lady, who bore her husband two children before 'she tired of life in a small country manor house and eloped with a cavalry officer named Hughes, whom she left to become the mistress of a peer,' introduced a new strain into the Montford blood. Although Mr. Mills's story ostensibly begins with one Henry Montfort on shipboard bound for Australia with his family and all his household goods in the year 1840, it reaches back through Henry's father, old Raoul, to his father, the Simon who lost his head over Madeleine des Baux; and it proceeds onward through three more generations, making six in all. In each of these generations through one or another of the collateral branches, the heritage of Madeleine emerges in at least one individual."—**Books (N Y Herald Tribune)**

"There is, one observes, considerable symbolism mixed up in this realistic and encyclopedic novel. There is also delicious irony; and assurance of promise such as few novelists give. But I hope that for some time to come, Mr. Mills will set his scene at least a generation or two ago. When he undertakes the post-war cynicism, he sounds too much like too many other clever young men; and his once delightful conversations become clever essays." A. B. Parsons

After a sheltered, carefully tended boyhood in Canterbury the hero, a sensitive dreamy youth, goes to London. This very innocence leads him into a particularly painful scandal that bars him from his family, and he becomes a fugitive over the world, fleeing reality, and seeking dreams.

"Mr. Milton ends in the typical rut of the over-emphatic introspective novel. But in the mean time he has treated sincerely and tragically a situation that has hitherto been largely reserved for discussion in psychiatric textbooks. There is no reason why it should not be treated in fiction provided it is approached with understanding. This Mr. Milton has done; and in this much 'To Kiss the Crocodile' is a singular and noteworthy achievement." Eugene Lohrke

MITCHELL, RUTH COMFORT (MRS WILLIAM SANBORN YOUNG). Army with banners. 304p $2 (7s 6d) Appleton 28-21974

There are three portraits in this novel: "Angel," a woman evangelist; her mother whose astuteness made the Angel a public idol; and her daughter whose innocence smashed the idol. Angela's frail loveliness gave her the appearance of unassailable purity; her mother's showmanship built the appearance into a legend and the legend into Hallelujah Tabernacle. Between them they bring the daughter up to be in fact what Angela seems to be, wholly unspotted from the evil of the world, simply and sincerely religious. A newspaper reporter tells her a few truths, and the Tabernacle totters.

"This fast moving novel recalls the newspaper headlines about Aimee Semple MacPherson, though it has its differences. Willow Meeker's mother is the evangelist and the mother is the vivid personality. "The thirteen stories are Greek quite as much in mood as in matter; that is why we never feel that their characters, for all their modern colloquialisms, are Englishmen taking part in costume pieces. Certainly Mrs. Mitchison is not uniformly successful, but no one who reads 'The Lamb Misused,' 'The Highbrow,' 'The Epiphany of Poiseëssa' and, perhaps, best of all, the title-story, will be likely to leave any of the others unread. There is in these pages a spontaneity and clarity of thought and expression which are genuinely beautiful. The interspersed poems add nothing to the tales, but are worth reading."

+ — New Statesman 31:370 Je 23 '28 160w

"There are a dozen stories in the book, and they are all written with Greek simplicity, but in a very modern idiom. Scattered through the book are poems that preserve the classic manner more thoroughly."

+ N Y Times p11 Je 17 '28 460w

"The verse serves chiefly to prove that Mrs. Mitchison is a poet in prose. It lacks form and true lyric intensity. The prose, however, simple and colloquial as it is in expression, possesses an atmosphere that softens with a kind of distant beauty the harshest of human destinies. And most of the destinies of these tales are very harsh, and the harshest of all the most bitterly convincing." Ruth Suckow

+ — N Y World p7m S 9 '28 280w

"The stories on the whole are most enjoyable. Whether the Greeks were so eager in disposition, so lively and colloquial in speech, so instant in their demands on each other's attention, as she depicts them, one cannot tell. She has got it firmly into her head that their moral notions were very different from ours, and these differences she emphasizes so much that at times we seem to be reading about specimens rather than human beings. Surely she exaggerates the lightheartedness with which they inflict and suffer pain. In her anxiety to present them alive and kicking, she makes them a hasty and undignified people. But she conveys wonderfully the freshness and glamour of the Greek world, and she makes it possible to imagine the process of living, the very sequence of thoughts and actions, in that remote epoch." L. P. Hartley

+ — Sat R 145:810 Je 23 '28 420w

"The title story is the last, and to this reviewer's taste the best; in that and in three or four of the others there is a poignant feeling that strikes an instant response in the modern reader, who has felt, or can conceive himself as feeling, exactly the same thing. But the three stories on which, one suspects, the author has lavished the most loving care deal with Pindar. . . . As historical reconstructions all three stories deserve an award of merit, but as works of art they fail to come through, precisely because they are such good paleontology." Elmer Davis

"A book which is pleasant, indeed. Mrs. Mitchison is perhaps most sure in her pathos, and one or two of the stories are sincerely moving; while all are more than commonly interesting. She has also a great love of natural beauty, and there are some pages of fine description. The same quality is remarkable in the best of her poems, although on the whole they fall much below the level of the prose, suffering somewhat from obscurity, and lacking that sheer intensity one demands from poetry."

MOEHLMAN, CONRAD HENRY. Story of the Ten commandments; a study of the Hebrew decalogue in its ancient and modern application. 299p $2.50 Harcourt

222.16 Commandments, Ten 28-8154

The author cites the varying interpretations of the Ten commandments adhered to by the Jewish, Protestant, and Catholic churches, and by the Fundamentalist and the Modernist. He studies also the commandments of the New Testament, and bases on these a decalogue having a social application to modern conditions.

" 'The Story of the Ten Commandments' is interesting because it is original and enlightening. The book is important because it demonstrates by a specific and impressive instance that religion is not a supernatural revelation, but, on the contrary, a natural product of the social experience of mankind." — Cath World 127:636 Ag '28 200w

"The book has practical significance as the indispensable volume for every pastor who contemplates a series of sermons or mid-week addresses on the ten commandments. But its theoretical significance is perhaps greater still. These basic principles of Christian ethics are discovered to be the product of an evolutionary process in both their nature and their interpretation. This process is not complete. It is going on in our time. Each generation will require its own fundamental laws of life. They must not be imposed by the past but distilled from the necessities of the present and the promises of the future. The author follows his own logic to its inexorable conclusion by daring to offer a new set of ten commandments 'which may prove helpful in focussing attention on the basic requirements for successful living in the modern world.' MONAHAN, MICHAEL. My Jeanne d'Arc; her wonderful story in the light of recent researches; with notes from a pilgrimage in France. 298p $3 Century

B or 92 Jeanne d'Arc, Saint 28-8761

Possessed by his subject, Michael Monahan has written a reverential life, whole-hearted in its admiration for the maid and faith in the saint.

"My Jeanne d'Arc may be called a biographical rhapsody, mingling the elements of the supernatural with the actual. Monahan has no intention of fencing off his faerie spectacle from the sober circle of lookers-on. They are invited to enter in and mix with the crowd of spirits who dwell in the soul of the inspired Maid."
Bookm 67:xvii Jl '28 110w

"Among the several virtues which Michael Monahan possesses both as a man and a writer is the virtue of personal interestedness something like, but more vigorous, than partisanship. He is on the side of his hero, or, in the case of Jeanne d'Arc, of his heroine. He is roused by some character; he becomes the interpreter of what is passionate or devoted in it, he becomes rousing about that personality. Probably this personal interestedness fails to take account of many qualities. But it brings across to us the positive qualities that made his hero or his heroine a figure in the world." "Mr. Monahan writes with a marked lack of taste which is revolting, and carries no conviction but the one that he is inherently incapable of perceiving the simplicity and austere beauty of the character he is attempting to defend. From what precisely he wishes to defend her I do not know. The only defense she needs at this point of history is against such literary treatments as he has given her." Margaret Whipple

— N Y Evening Post p5 Jl 14 '28 210w

+ N Y Times p6 Ap 8 '28 1750w

"Michael Monahan, despite the impassioned prose and occasional lofty panegyric in his new book, has contrived to write a most solid and substantial history of Joan of Arc. His portrayal of the Maid is zealous, with a real and wholesome zeal that is neither fanatical, mystical nor psychoanalytical. An earnest friendliness with the girl, and a devout belief in the saint and warrior, pervade his work." Christine Diemer

MONGER, MIRIAM. Diana of the north country. 307p $2.50 Stokes

28-18237

The story of a northern Minnesota dryad, her woods, and her three men. Diana is in love with the woods and Paul, and is quite happy expressing her love in poems. Creed, a publisher, upsets the forest idyll by offering to marry Diana and publish her poems. She accepts and moves to town, leaving Paul to console himself as he may. Anatole, the third lover, moves in a mysterious way in and out of the story and finally off with Diana, after her return to the wood and the murder of Creed. Dashes are the favorite form of punctuation. They grow a little hard to—hurdle.

"A country miser, named Wolfgang Weinold . . . alone in the book is a character, and his egoism, his temperamental fingers and his never successful struggle for happiness in the attainment of his two conflicting ideals—wealth and beauty—give the book its only distinguishing feature. The writing is uneven, at rare times instinctively strong, particularly in description, but more often purposeless and undisciplined."

"La Grande Mademoiselle is Anne-Marie-Louise d'Orleans, Duchess of Montpensier, granddaughter of Henry of Navarre, cousin of Louis XIV., and one of the richest heiresses in France. She was styled 'grande' because of her unusual height. . . In these memoirs, written after the blighting of her love affair, Mademoiselle is something of a philosopher, a great deal of a politician, and introspective enough to suit a psychoanalyst. At the end of the volume she gives an excellent description of herself, how she looked, how she acted, and how she thought. The story of a Southern girl who felt that she must choose between father and lover, but learned in suffering during the Civil war that she could be equally loyal to both.

" 'Rising Wind' is that and no more—forever promising a storm of excitement and romance that never breaks. For a novel that owes its least important paragraphs to no less exalted inspirations than loyalty-to-the-death, soul consuming passions, and indomitable courage, it makes singularly (or consequently—as you will) dull reading. MORAND, PAUL. Living Buddha; tr. from the French by Madeleine Boyd. 287p $2.50 Holt [7s 6d Knopf]

28-7496

Prince Jâli, heir to the kingdom of Karastra in southern Asia, journeys to England with Renaud d'Ecouen, a much travelled young Frenchman who is Jâli's tutor and friend. Jâli is eager to see and understand the Western world: his equipment is the Buddhist philosophy of his ancestors and a mind awake to new impressions. A term at Oxford, a season in Paris where, as a Buddhist pilgrim he meets an American girl whom he follows to New York, and his painful disillusionment there, are steps leading back to Karastra and the life he had thought to renounce.

"The incidents of the book are clearly fantastic, but the psychology that moves them is amusingly genuine. The result is a sophisticated and not too profound satire upon the ways of both East and West, done with Gallic lightness and good-humor." Rose Lee

But his style and his mind are too alert, too bright and facile, to permit these things to stand forth as bare, absurd facts in the narrative. They are so glazed over and adorned that they become acceptable, even the scene at Sherry's, as authentic bits of the modern cosmopolitan kaleidscope. Perhaps this shows the real power of the writer; in any case we accept the people and the bizarre jumbled atmosphere, mingling descriptions of the latest thing in Grand Prix Bugattis with explanations of the Buddhist doctrine of penitence. For the space of the book, at least, they serve, and the French government is to be congratulated on its discernment in exposing its clever employee to Oriental influences. "The subject matter is new in that the poet weaves a legend around the myrtle tree—a legend of the love of Myrtella, a priestess of Venus, for Faydon; how Faydon kills Synnis so that he may claim Myrtella the reward, and how Venus, wrathful at losing her favorite priestess and because she hated Faydon (who was a descendant of her eternal foe Apollo), kills Faydon and transforms Myrtella into the myrtle tree. The author has introduced a number of well known legends for the development of the plot, but has in each case purified the original story."—Books (N Y Herald Tribune)

"To this reviewer 'Toulemonde' is the best of Morley. Here is Morley the poet, no longer cavorting to amuse the children nor dressing up as a sea-captain or a scholar gipsy to amuse himself. Here is Morley deep in sincerity, suddenly aware of the passing of youth's ardor and lamenting it in an aching elegy. And here, in rich measure, is the Morley who, a dozen years ago, helped some of us to a new way of regarding the world." Morris Bishop

"The Mrs. Lincoln here presented is a very different person from the one we have known since the days of the inventive Mr. Herndon, who was responsible for that sentimental myth about Anne Rutledge. These new portraits are charming. . . Perhaps Mrs. Morrow has romanced a bit here and there, as would be natural when a novelist turns historian. A final good-measure essay on 'Some Popular Fallacies About Lincoln' is not wholly successful. For example, she denies that Lincoln told risqué stories, partly, it appears, on the ground that nobody has ever repeated any of them to her! But the book fully achieves the author's intention of vindicating Mary Lincoln against baseless slanders, and of presenting a full, accurate, vivacious portrait of her." Allan Nevins

But her lesser characters are better, and her picture of Mary Todd Lincoln, that unfortunate woman who was set by fate upon a peak too dizzy for her to hold after her colossal prop was gone, is sympathetically and successfully drawn. The book may well give high school boys and girls some understanding of the political difficulties which beset Lincoln, and may help them to see Civil War days in Washington. "Whoever reads this book will find in it not only the material sights and things for which most people look when they go 'in search of England' but also no small part of the soul of England and a goodly share of the soul of its author. In his first chapter Mr. Morton tells how in 1923 he thought he was going to die in Palestine, how he longed for England, visioned England symbolized in her villages, was ashamed to think how little he really knew of the real England and vowed that if he ever saw his homeland again he would go in search of England in her lanes and thatched villages, her famous towns and unknown hamlets, among her lords, cottagers, tramps, gypsies and dogs. And finally he fulfilled his vow in the journey of which this book is the narrative." —N Y Times

"Whatever he saw and whatever he heard went into his notebook, to be transferred after a little polishing to the columns of 'The Daily Express.' There we cannot but think they might have been allowed to remain, for though they are sufficiently lively and entertaining to have doubtless refreshed the readers of that newspaper, they are neither original enough in substance nor distinguished enough in quality quite to merit their reproduction in book form. The exigent demand for lightness of touch puts Mr. Morton's small talent for grace and delicacy to an obvious strain."

Marny Childers passes easily from a happy, wholesome childhood to untroubled adolescence. Falling in love with Rex, her inseparable playmate, is as simple a process as the other; it happens just as Rex leaves for the war. After his death when Marny herself is serving in France, she is stunned by the discovery that Rex was other than she had thought him. MOZART, JOHANNES CHRYSOSTOM WOLFGANG AMADEUS. Letters; sel. and ed. by Hans Mersmann; tr. from the German by M. M. Bozman. (Dent's int. lib. of books on music) 278p il $5 Dutton [10s 6d Dent]

B or 92

A selection from the letters of the musician to his family and friends, which covers nearly the whole of his short life. The first letter, to his mother, was written in 1769; the last, to his wife, is dated 1791, the year of his death. There are included a few letters of his father and mother. All the letters are concerned with the homely little details of everyday life, but they succeed in giving a clear picture of the author and his world.

"It is of homely, spontaneous family letters that the Mozart correspondence is chiefly made up. The dissertations upon art that give such urgent value to Wagner's letters—be the art his own or that of others—are rarely approximated in Mozart's. . . The Mozart letters resemble Beethoven's in their preoccupation with everyday matters." P: Bowdoin

"The Mozart correspondence is very full and covers almost the whole period of his life. Mr. Bozman's translation is admirable. It is to be hoped that others beside musicians will take this new opportunity of reading these delightful letters, where the playfulness is never affected, the nonsense never selfconscious, and not one word seems to have been written for posterity."

+ Nation and Ath 44:sup236 N 10 '28 480w

"The arrangement makes it possible to make an almost continuous story from various episodes of the composer's life and to fill the story with all the intimate detail that letters can provide. . . The riddle of Mozart's character cannot be wholly explained by these letters, but if they are used judiciously a great deal of light is thrown upon the subject." Basil Maine

+ Spec 141:sup451 O 6 '28 200w

"The value of these letters is historical rather than literary, and their interest even human rather than musical. Above all they show us what kind of a man Mozart became, and only through that do we see what kind of a musician he was. . . The book is a valuable addition to the English bibliography of Mozart, even if it does not remove the need for a more complete version of the correspondence. . . Anyone who has ever attempted to translate even a few of Mozart's letters must admire the courage of a man who undertakes the translation of one hundred and forty of them. Written in half a dozen languages, often in obscure dialect, sometimes in mere gibberish, they present a difficulty even greater than Beethoven's illiteracy and doubtful punctuation. Mr. Bozman has been extraordinarily successful in preserving the spirit of the letters in his translation."

Carrington was going up to Scotland for a rest before the opening of a big case, which would make his name as a lawyer. He and Bobby Tresham had planned a fishing trip which never really came off. On their very first night in the Highlands they came upon the body of a man, apparently murdered, and from that moment their peaceful fishing trip developed into a wild chase. There were secrets and family traditions and deep laid plans and shootings, but in the last scene "the eagle returns to Cairn More," and peace came to the Isle of Shennach.

"The best thing about this tale is that the hero is not always brilliant. He does not instantaneously leap to action on the spur of any moment. He muddles along, much as you or I in the same circumstances, but he is more plucky, perhaps, than we. We congratulate Mr. Muir on an excellent story." I. W. L.

Dhan Gopal Mukerji's method is to pick out debatable statements in Katherine Mayo's book, to refute them from his own knowledge and experience of Indian life and to support his refutations by the published statements of many responsible Europeans and Indians whose services to the country are widely known.

"The present book has what Miss Mayo's book often lacked, exact references to official documents, which we are compelled to believe disprove many of the statements made in Mother India. The book on the whole is temperate in tone, especially the latter part of it. The author does not pretend that some reform is not needed in India, but he shows quite plainly that it is somewhat absurd for an American to criticise certain Indian customs, even if they were correctly given." "Mr. Munson begins with an admirable schematization of the mixed tendencies in contemporary writing. The present moment, as analyzed by this critic, yields four main currents of activity: the classical stream of More and Babbitt, whose influence was submerged by the second tendency—the romantic generation of Brooks and Dreiser; then a third group of writers, sympathetic to the classicists and represented by Pound and Eliot; and, finally, the 'youngest generation,' made up of Kenneth Burke, Malcolm Cowley, Yvor Winters, Hart Crane, and others, who are drawn toward Babbitt and More through their schooling with Eliot and Pound. He then goes on to a summary of Professor Babbitt's books, and to a detailed defense of Mr. More. He pleads throughout for order and discipline, for ideals of perfection that, realized, might make our literature more varied, deeper, and richer."—New Repub

MURRY, JOHN MIDDLETON. Things to come; essays. 318p $2.50 Macmillan [7s 6d J. Cape]

824 28-24841

Tho the subjects of these essays are miscellaneous the author, in his preface, points to their possession of an inward unity and purpose —the interpretation of the religious experience and the need of a rebirth of individuality. Contents: The need of a new psychology; Newman and Sidgwick; Keats and Tolstoy; William Archer and the survival of personality; Personality and immortality; A theological encounter; Christ or Christianity? Renan's dream; Science and knowledge; 'Truth to life'; The parables of Jesus; Poetry and reality; The philosophy of poetry; Poetry and religion; Poetry and prayer; Thoughts on pantheism; To be or not to be? The method of Michael Faraday; On reading novels; On being a classic; Concerning angels; Paulines and Galileans; Patriotism; A divagation on politics, The lord's housekeeper; The divine plain face; Appendix: T. H. Huxley's translation of Goethe's rhapsody on nature.

"He is always at his best in his treatment of purely literary subjects, and the most pleasing essays are those upon Keats and Tolstoy, and upon poetry. In others, particularly those in which he attempts to approach the heart of his mystical experience, there are passages which will be apt to irritate even the sympathetic reader; the rhetoric grows shrill, almost as though he himself despaired of effective utterance before the shrine of Eternal Ineffability! Nevertheless, the fact remains that Mr. Murry is one of the four or five younger critics whose opinions and whose progress really are of some importance."

There is an extremely interesting comment on Tolstoy's 'What is Art?' If the remainder are not all of equal merit, still Mr. Murry touches little that he does not, sometimes vitally, illuminate, revealing unexpected accessions of significance in a multitude of connexions. But the final impression made by 'Things to Come' is perhaps that for Mr. Murry the time for such fragmentary explanation and exposition is over, lest he cover the same ground too often."

MUSSOLINI, BENITO. Cardinal's mistress; tr. by Hiram Motherwell. 232p $2 Boni

28-19750

The story, written in Mussolini's youth and reprinted for what interest it may have on that account, "concerns the tragedy of a great cardinal prince who, well along in years, tries to persuade the Pope to release him from his vows and allow him to marry the lovely Claudia, for whom his passion has lasted most of a lifetime. The Pope refuses. There is intrigue on top of intrigue, and at last one of Claudia's enemies succeeds in killing her, leaving Cardinal Madruzzo to a lonely old age and a lonelier death." (Books [N Y Herald Tribune])

"It is a pretty bad novel, and the dragging-out process by which it was completed is all too obvious after the first fifty pages or so. . . 'The Cardinal's Mistress' has its interest for a good many people who admire the Italian leader, but as a piece of fiction it is of no importance whatever." Herschel Brickell

Discreditable facts are either neglected entirely, or if, like the murder of Matteotti they are too well known for this to be possible, a story of some kind is made up, all contradictions are ignored, and the spotless virtue of Fascism and the vileness of its opponents are proclaimed through page after page of indifferent nonsense."

It is both fortunate and unfortunate that Mussolini chose to speak rather than write his story, fortunate because the result is a volume which, though it says little which has not elsewhere been printed, catches his spirit, his personality as no other book does. On the other hand, spoken Italian is the language of oratory in which the most banal phrases seem significant. In declaiming this book Mussolini has neglected to support his own case and has loaded absurdly unjust condemnation on the shoulders of his opponents." Percy Winner

"Mr. Nathan's observations on the theatre, which are often shrewd in their content, are spoiled by the mechanical pertness of his style. NATHAN, ROBERT. The Bishop's wife. 208p $2 Bobbs [6s Gollancz]

28-21889

The Bishop is looking for an archdeacon for his new cathedral. The place, he tells his wife, calls for an angel from heaven. And there comes a real angel named Michael, whose heavenly attributes are recognized only by the Bishop's wife. With her, starving for some beauty and joy in the ordered dignity of the Bishop's house, the angel falls in love, simply, delicately, and beautifully as an angel should. The tender fantasy of this affair is combined with a gently pointed satire on the worldliness of the modern church.

And it is pleasant, also, not to find them labeled the Best Stories of anything, and comforting not to find an explanatory preface. These people seem very little interested in new forms, very little influenced by Ernest Hemingway or any one else, very little troubled by that 'high seriousness' which troubled their distinguished countryman. These people write in the safe, genial tradition, and in these particular stories they write with the example of Boccaccio before them: the example of providing, not edification, but entertainment. But, while sharing Boccaccio's desire to provide entertainment they do not wholly subscribe to his method for providing it. She dwells in a rather unpleasantly sophisticated and somewhat incongruous way on physical sensations, for she hardly convinces the reader that her emphasis is typical of the characters she happens to be presenting. Miss Newman's real flair is satirical. Her observation often plays over the surface of life with a zest that the reader can share, as he can share her covert antagonism to various social forms and conventions of the older South, despite their accompanying humaneness. But her understanding of emotions is limited and her portrayal tedious with repetition."

926.1 Medicine—Biography. Public health

[27-11039]

The nine essays here collected deal with men whose careers, in science or literature, are identified with the progress of medicine. "There is a delightful paper on Keats, in which the poet's life as a hospital student is described and the influence upon his art of the study of medicine analyzed. Other essays deal with mediaeval Padua, with individual medical pioneers like Sydenham, Boerhaave, Pasteur, and Sir William Osler, and with modern questions of public health in their widest aspects."—Nation and Ath

"There is not an essay, nor even a page in any of the nine essays contained in the book, which is not worthy of careful attention. The style of the writer is exceptionally good, and the book as a whole can be heartily recommended both to the medical profession and to all who are interested in the advancement of medicine or of mankind. NEWTON, ANNABEL. Wordsworth in early American criticism. 210p $2.50 Univ. of Chicago press [12s 6d Cambridge univ. press]

821 Wordsworth, William 28-8956

The scope of this study of Wordsworth in America is largely limited to the period between 1824 and 1860. Beginning with a chapter on "basic materials for the study of the early fortunes of Wordsworth's work in America," the author gives next a short review of American culture during the first half of the nineteenth century. The period of Wordsworth's unpopularity, the period of transition, and the period of full appreciation are followed by a short summary chapter. There is an extensive bibliography.

"As a contribution to that peculiar aspect of the history of criticism that might be named aesthetic psychology, this little book offers both significant and entertaining evidence not only as to how slowly and reluctantly the moral sensibility of American taste learned to outgrow its preference for Mrs Sigourney and Mrs Hemans, but as to the obstinate temperamental difficulties that hindered even such daring critics as Emerson and Poe from catching the true Wordsworthian spirit."

Returning home beneath the moon, he was 'transformed' by a vision sprung from his tormented mind, and so passed from the hellish slavery of his obsession to a rapturous freedom. The narrative is short. In order that the tension may never break, Mr. Nichols has employed a deliberately artificial prose not of our day, nor, indeed, strictly of the narrator's own period: an elaborate and heavy rhythm, which in a different connexion or in a longer story would demand relief, but which does produce its intended effect."—Times [London] Lit Sup

"Widespread use, to say nothing of imitations more or less shameless, has attested, for thirty years, the value of A. A. Noyes' Qualitative Chemical Analysis. From time to time outlines of a more comprehensive system have appeared in various periodicals and as communications to various societies. Now we have a finished masterpiece which insures to its authors long-continued preeminence in the qualitative field, as well as considerable influence upon the qualitative procedure of the future." The second half of the book contains much detailed information on the experiments made by the authors and their students on the subject, and there are useful references to original papers, although these have been carefully selected and are not large in number. This book cannot fail to be of service both to students and investigators and also to analysts."

"There is hardly one that has not youth and freshness. Many of them are over-written, in the Post technique; some would have profited by rearrangement, some are too sweet and evangelical. But the zest, curiosity and imagination of youth all are here, applied to the range of material that strikes one afresh as the great asset and opportunity of American writers. There is not a touch of genius anywhere in the book, except perhaps in Ernest Hemingway's 'The Killers'; but this is a book to be proud of." Elizabeth Wyckoff

The book proper is divided into five major parts: Part I, labor unions, their organization, their legal status, their liability, and the like; Part II, employers' associations and combinations; Part III, statutes or contracts relating to the employment of union labor; Part IV, union labels; Part V, industrial conflicts. The text is supplemented by about one hundred pages of important and illuminating appendix material. The method of the book is that of plain statement of the principles of law which are drawn from the cases cited. The collection of material is remarkably complete, within the field chosen by the author."—J Pol Econ

OBRIEN, CONOR. From three yachts; a cruiser's outlook. 273p $4 Longmans [10s 6d E. Arnold]

910.4 Voyages and travels. Yachts and yachting

The author of "Across three oceans" (Book Review Digest, 1926) continues the account of his sea adventures. He divides his book into three parts, devoted to the three different yachts that have provided him the experiences of the last fifteen years. The first, the Kelpie, engaged in an Irish gun-running excursion in 1914; the second, the Saoirse, took the author on a round-the-world cruise; in the third, the Ilen, he sailed on an expedition to the Falkland islands.

Boston Transcript p7 Ap 21 '28 680w

"It has a special interest for the expert, but it will give pleasure to readers who scarcely know the difference between reef points and compass points. Its literary quality is good; indeed, there are in it many thoughtful and many charming passages which could be detached as separate essays on a variety of topics."

+ **New Statesman 31:134 My 5 '28 250w**

"Many good books have been written about the delights and terrors of single-handed sailing, but they contain few pages more fascinating than Mr. O'Brien's narrative of Kelpie's last cruise. His style is admirably adapted to a subject which any tendency to diffuseness or fine writing makes at once intolerably wearisome. The freshness of the early world still breathes from such pages, though perhaps only practical yachtsmen can read all the meaning that lies between the lines."

Mr. O'Brien has culled his examples from every field of fiction, and selected them with an eye to nothing except to merit. They are not, of course, equally meritorious. Mr. Garnett's little fantasy, in the manner of Hans Andersen, with its heartless close summed up in a single sentence, is quite delightful. So also is Mr. Desmond MacCarthy's 'The Most Miserable of Men': many are the stories that have been written round conversations between strangers in trains, and this is much the most readable, not excepting 'The Kreutzer Sonata.'" O'CASEY, SEAN. Silver tassie; a tragi-comedy in four acts. 140p $1.75 (7s 6d) Macmillan
822 28-19610

In the four acts of this tragi-comedy, Sean O'Casey tells the story of Harry Heegan, local football hero, who in the first act wins a coveted trophy, the Silver tassie, for his team, and leaves immediately for France. The second act is an impressionistic scene in the trenches. Harry is desperately wounded. Crippled for life he returns to his Irish village, to look on helpless while another walks off with his girl.

"It would seem that the trouble with 'The Silver Tassie' is not lack of ideas but the presence of too many fugitive thoughts on war and its effects. As a reading play it is, though sometimes needlessly shocking, very often muddled, and occasionally absurd, at least always interesting." J. F. S.

"Dublin has suppressed this newest play by the author of 'Juno and the Paycock.' Certainly, it is a harsh and uncompromising piece of sardonic writing. "The first act is an excellent sample of Mr. O'Casey's old naturalistic manner. Here is his well-known impact of wit and sense and fantasy upon homely character, a thing indigenous to Dublin as the wharves of the Liffey. But after that first act it was as if a man, writing with the ascetic clearness of great intensity, should have come in to him a drunken friend with a long, maundering tale; and as if he should set down that tale without choice or amendment... One becomes convinced in the end that the situation is not properly dramatic material at all." Vincent McHugh

"The play can certainly be criticized as a hotch-potch in which a first act of typical tenement drama done with all Mr. O'Casey's sureness and largeness of sardonic humour is followed up by a fantasy, now mainly symbolical, now mainly sonorous, against which an academic taste could certainly level a charge of muddled moods and modes... Mr. O'Casey's war scenes are as wild and sometimes as woolly as anything that could be written by an Expressionist with a headache: but they are not dull. The whole boiling is prepared with immense vigour, and the Dublin comedy is as strongly phrased as ever. If Dublin won't face it, others surely will." Ivor Brown

This phenomenon, in its cold persistence and final climax, is unique in our history. Mr. Odegard tells simply, unexcitedly, judicially and also a little dryly how it was done. His book has not escaped the curse that hangs over any doctorial thesis. It has footnotes, appendices and an index, and sometimes the reader will wish for an interpretation where the author confines himself to a statement of fact. But as a good wine needs no bush, so the story of the Anti-Saloon League does not need jazzing up."

Volume one (Book Review Digest, 1923) was introductory, containing some biographical notes and selections from Olmsted's early letters and writings. The subject of volume two is Central Park, Mr Olmsted's first great work of landscape architecture, designed in collaboration with Calvert Vaux. The first part of this volume is a review of the history and evolution of Central Park. This is followed by the Olmsted and Vaux papers presenting the designers' conception of the park, its planting and architectural features, and letters concerning its use and upkeep.

The study of a gifted and sensitive youth in St Louis in the '80s, and his frustrated dreams of love and art. Clarion Lawless is a rich man's son. Since adolescence he has loved Clover Halliday but is kept from telling her until she is engaged to some one else. The belated expression of their love has unhappy consequences for both.

"Plainly Clarion is contemptible, and one is puzzled by the author's intention in telling his story. The book is uneven. In the middle of a conversation redolent with outmoded gentility will slip a phrase of to-day. The causation at times is strained to incredulity; at other times it is unregarded. Clarion is a figure uncompleted, while Clover, much more tersely presented, is easily acceptable. As a first novel, however, it stands well."

— + **Books (N Y Herald Tribune)** p26 Ap 15 '28 480w

"George O'Neil's book is not as unusual as his poetry. He takes a great deal of space to tell a story, and that story often does not hold the interest, but when the reader thoroughly comes under its spell (about one-half way through) he forgets the former impatience which amounted almost to irritation, and reads on."

"The background of the story is very much alive. The aspiring city, ambitious for a social prominence and a Four Hundred of its own, is real. And the minor characters who stand outside the depressing shadow of the book's main purpose are vividly sketched. But where the battle is thickest and points should be the sharpest, there are generalities. Clarion Lawless, to my mind, never fully emerges from a vague and pervading impression. He never seems to dominate the conflict and acquire sufficient importance to make his final suicide tragic." F. L. Palmer

O'NEILL, EUGENE GLADSTONE. Strange interlude. 352p $2.50 Boni & Liveright [7s 6d J. Cape.]

812 28-7769

Because her lover, lost in the war, had never possessed her, Nina Leeds gives herself to several war convalescents. She gets no joy of her sacrifice, so she marries Sam, hoping in motherhood to find complete expression for her necessity to give. As the years go on, it becomes apparent that instead of giving herself, Nina is absorbing the lives of three men —husband, friend, and lover. The play is very long—nine acts—and Freudian in candor. The characters say not only what they have to say, but in different voice pour out the thoughts that lie back of their words.

"From the standpoint of technique 'Strange Interlude' is, of course, of the very highest interest: It succeeds by means both of its unusual length and its novel uses of spoken thought in presenting upon the stage a kind of story hitherto capable of being treated in the novel alone, and it may possibly establish a new kind of dramatic writing if others can be found to master its form as O'Neill has mastered it. . . To make hidden thoughts visible, to voice the qualification at the same moment as the statement, to present the lover, outside and inside, all in the same speech, is like doubling the power of a battery. The play becomes more articulate, for now it is all told."

"That long succession of acts which make up Strange Interlude finds Mr. O'Neill, who has never excelled in restraint and has always been weakest in pruning his texts to their most effective essentials, not only doubling on himself again and again but seeking after a form that by its very nature invites such repetition. . . . It is a pity, too, that Mr. O'Neill, who is primarily a dramatist of the emotions, should be taking himself more and more seriously of recent years as a mystic seer, who, in the case of Strange Interlude, seems to be writing with a crystal in one hand and a volume of Freud in the other. It is a pity because whenever his story is strongly felt, when its emotions are raw and undisguised he writes with that strength which is so peculiarly his own. Strange Interlude is constantly interesting, in spite of its length, its repetition, and even the awkward use of the soliloquies and asides." J: M. Brown

"Handled by Mr. O'Neill, this technique achieves now and again a surprising dramatic force. He conducts us into the secret places of the mind and we feel the sudden uprush of forces that lie below the level of conscious thought. Just as realistic dialogue on the stage carries, through its own force and the actor's skill, the latent content of the mind of the character depicted, so O'Neill's spoken thought combined with the actor's subtle characterization brings us one step nearer an apprehension of the springs of being. There are dynamic moments in Strange Interlude when we seem to be on the threshold of the great discovery."

"Nina and the men who are concerned with her emerge from Mr. O'Neill's narrative, severally and collectively, with tragic completeness. He has perceived the truth in them, and has pronounced it without fear. . . The work is remarkable, not as an instance of a technical process which under Mr. O'Neill's awkward government loses for him at least as much at it gains, but because the mark of irregular genius is seen unmistakably to be sprawling over it."

OSBORN, CHASE SALMON. The earth upsets (another terrestrial motion). 216p $3 Williams & Wilkins

551 Earth movements. Earthquakes 28-15149

A collection of facts regarding movements of the earth's surface—land slips, subsidences and emergences, and earthquakes—which reads as if transcribed directly from the author's notebook. It is interesting material, not very well presented.

"In spite of his flings at the specialists, Osborn's hypothesis will receive very serious consideration at the hands of specialists. He takes a wicked delight in making it as hard as possible for them to be fair to him. He twits them with being human, and of course they can't deny it. But of course the book must run the inhuman mathematical gantlet. Meantime we common folk, if we care for human interest and virile words, will read the book. Never did the scientific temper and the motor temper so struggle with each other in one volume. And for such reasons it is a remarkable volume." E. H. Lewis

940.1 Middle ages. Civilization, Medieval 28-10724

Mr Osborn is the author of the "Heritage of Greece and the legacy of Rome" (Book Review Digest, 1925). His survey of the Middle ages, undertaken in the present volume, falls under the following headings: The mediaeval mind; The ghostly empire; Defense of Christendom; Social foundations; Land and labour; Trade and industry; Mediaeval literature; Bibliography.

Books (N Y Herald Tribune) p12 D 23 '28 200w

"Mr. Osborn has worked at his task with the greatest conscientiousness, endeavoring to free himself from all prepossessions and prejudices and present his survey in the clear and honest light of historical fact. It is based on very wide and careful reading and its temper is judicial. But one comes to the end of it with the feeling that he has not caused to emerge a clear, outstanding conception of the contours of the mediaeval epoch. His pages are too much cluttered with detail."

916.6 Africa, West—Description and travel. Africa, West—Social life and customs 28-28578

"Professor Ossendowski is—as is abundantly proved in his earlier books—a man of action, but in this book he is mainly speculating—conjuring up the mind of the African native and the past and future of his continent; after a reference to the 'expeditions and discoveries of Livingstone and Stanley,' he goes on: 'the only sphere left for me to investigate is that of the souls of various coloured peoples.' He carries out this investigation confidently on lines of his own. Where the idea underlying some story told him or some disclosure of native practices brought out in Courts of law strikes his imagination he invests it with characters, plot, and dialogue and makes it his own."—Times [London] Lit Sup

But having given up half his book to the history of some seventy years, in which apparently he is personally interested, from 1520 onward his story is a dull summary, which would have been inadequate even twenty years ago. Being written for an American audience, his book describes the beginning of printing in America somewhat more fully than is usual in English treatises, and it ends with an interesting chapter on organization in the printing trade, principally in the United States. OXFORD and ASQUITH, MARGOT ASQUITH, countess of. Octavia. 331p $2.50 Stokes [7s 6d Cassell]

28-10302

Those who are expecting the unconventional in Lady Oxford's first novel will be disappointed. It is surprisingly old-fashioned—this story of Octavia Daventry, daughter of a rich Glasgow business man. Beautiful, self-absorbed, eager for life and experience, spoiled by her friends and lovers, she marries before her own love is awakened, withholds herself from her husband and only tardily surrenders.

Booklist 25:30 O '28

" 'Octavia' is an excellent portrait of a young woman neither neurotic nor silly. Is it too much to suggest that an intelligent girl is a legitimate subject for a novel? Octavia has an elderly friend, a professor, to whom she writes, after reporting a discussion of politics, 'I never enjoyed anything so much. First-rate conversation excites me as much as hunting and leaves more behind it.' And a first-rate novel about civilized people leaves even more than that." W: McFee

"I found 'Octavia' a dull book. Everyone who has read Lady Oxford's autobiography knows that she can write with great brilliance and point. But in her novel she has chosen to forget the variety of her experiences, and to recapture the atmosphere of the hunting field. . . The novel seems the work of a writer who admires unconventionality in unimportant matters, but remains ineradicably conventional in thought." Raymond Mortimer

— Nation and Ath 43:144 My 5 '28 160w

"One of the most attractive qualities of Octavia is its detachment from the various tendencies of the contemporary novel. It is a picture of people and scenes the author has known extremely well, and she has not been led to distort them for the sake of art or propaganda. . . It is the distinction of Lady Oxford's novel that it gives a very true picture of the traditional, fox-hunting, good-natured county life which is the same, in all essentials, as it was a hundred years ago. The best parts of the book are the hunting scenes."

+ New Statesman 31:128 My 5 '28 660w

"The characters are simply that famous trio A, B and C, who must play their expository parts in any branch of pedagogy, from simple arithmetic to complex etiquette, although Lady Asquith has tried with much energy to make them personally valid. Her failure lies principally in her inability to detach herself from her own age. Her young people are not young people: they are what young people would be if it were possible to be a young person when one had reached middle age. They are all, for instance, rather obtrusively given to conducting their conversations in quotations from famous authors." Margaret Whipple

" 'Octavia' is gay, clever and sophisticated. Its characters are those of good English society, the hunting Shires, the house parties, with horseflesh and flirtations well in evidence. But the story of Octavia Daventry is much more. It is a novel in the spirit and the manner of Jane Austin, natural, unaffected, unforced and undramatic. There is neither hero, villain, villainness, nor for that matter, heroine. Octavia is simply the central figure of a tender and wise portrayal of a young girl's acceptance of life." J: Carter

The artists whose work is discussed and represented in the illustrations include idols among the old masters and among the modernists.

"Because Mr. Pach has done as much as any man in America to win recognition for the work of modern artists, the point should perhaps be stressed that this book is in no sense a defense of modernism in the accepted sense of the term. PALTOCK, ROBERT. Life & adventures of Peter Wilkins. 342p il $7 Dutton [21s Dent]

A special edition of a fantastic romance first published in 1751 and much admired by Coleridge, Southey and Leigh Hunt. It relates the adventures of the Cornishman, Peter Wilkins; "his shipwreck near the South Pole; his wonderful passage thru a subterraneous Cavern into a kind of new World; his meeting there with a Gawry or flying woman, whose Life he preserved, and afterwards married her."

"Peter Wilkins is unique as an example of homely adventure, touched with fancy. Its inspiration and ideas belong to the fireside; yet, always comfortably, it can take wing. One cannot imagine its raising again such enthusiasm as was felt by Leigh Hunt; but if it does not stand very high, it stands alone. The illustrations of this reprint seem to be quite out of place, a fault not uncommon when an artist tries to supplement a book in a convention two hundred years later. Mr. Bawden's sketches remind one of the Russian ballet, and not at all of Paltock."

Paltock is more vital than Defoe, and kinder than Swift. His writing has no motive but pleasure. In a remote fishing village on the western coast of Denmark the government proposes to build a huge breakwater, to bring prosperity and progress to the community. But the project collapses; and the people, forced out of the natural routine of their lives, meet disaster as surely as migrating birds lured from their course by the harbour light dash themselves to death against the glass.

" 'Birds Around the Light' is not, as a story, comparable to 'The Great Hunger.' Neither does it possess the epic quality of 'Giants in the Earth' and 'Growth of the Soil.' But in his ability to make the sands speak and the stones live Jacob Paludan merits a place with all those who sing beautifully of barren lands which 'even the spring cannot make glad.' "Due, I suspect, to a stilted translation, this story crawls like a snake with a broken back. You acknowledge the poison in its fangs, but it has no power to reach you; you expect a deadly thrust, but there is none. The whole dignity of a book without humor depends upon the fine shadings of words. The words used here are probably accurate, but there is no fine instinct here for the English feeling of words and phrases. The book suffers terribly. Occasional passages obviously fine, become exasperating through blank, dictionary language. So much for the translator." Robert Hyde

" 'Birds Around the Light' strangely falls short of being a fine book simply because it is not quite interesting enough. It is vividly and often richly written, so that even in translation the style has distinction; its theme is powerful and ironic, and its people have all the plausibility of human beings. Yet the book lacks the intensity and concision that would make its drama thrilling."

"Throughout, the sea and the wind dominate the story. Unfortunately, there is no one central character (other than the ocean) to interest us; many of the incidents are of little discernible value to the plot. We do find, to be sure, two or three excellent passages of description, but usually the writing is heavy and uncertain."

"Mr. Paludan has suffered at the hands of his translator. Many passages are rendered with the loosest possible approximation to the author's meaning, and whole sentences are constantly omitted for no ascertainable reason. The poor quality of the translation is the more regrettable since 'Fugle omkring Fyret' is a fine piece of work which deserves to be known outside Denmark."

PANUNZIO, CONSTANTINE MARIA. Immigration crossroads. 307p $2.50 Macmillan

325.73 Immigration. United States—Foreign population 27-23481

This book aims to set forth in broad outlines America's significance to the laborer of the Old World, the contributions immigrants have made to the development of the United States, the changes in the attitude of the people of this country toward immigration, certain aspects of a possible constructive immigration policy and the international phase of the migration movement and of our restriction policy. Whatever its merits, it is the product of years of contact with immigrant groups, of study and thought upon the immigration problem and of nearly two years' close observation and attentive listening in the legislative halls at Washington.

PARADIS, MRS MARJORIE BARTHOLOMEW. Dinner of herbs. 386p $2 Century
28-10868

Daphne, at twenty, was determined to be a a lawyer. Marriage or love was not to be considered, which decision dated back to the time when she discovered that her adored father was a philanderer. Then she met Jerry and began to waver. Eventually Daphne and Jerry embarked on a four years' trial marriage. But Jerry, too, proved to be a philanderer and the trial marriage came to an end, only to be patched up as a real marriage later.

"The fundamental trouble with the story is that it has not the stuff of life in it. The characters fail to convince one of their reality and we suspect the author throughout of manufacturing situations to satisfy her thesis. Mrs. Paradis recapitulates all the old and new ideas and theories and objections and the novel strikes us as a thesis much more than as a story."

PARKER, SIR GILBERT, 1st bart. Promised land; a story of David in Israel. 336p $2.50 Stokes [7s 6d Cassell]

David, king of Israel—Fiction

This is the promised land of the Jews and King David is the main character. From the days when he tended his sheep on the hills near Bethlehem to his death as the honored ex-king of Israel the narrative follows the life of David, keeping close to the Biblical text.

"Of the improvised versions of Moses or David to date, this one most closely follows the Bible. Those readers who are on speaking terms with that book will appreciate 'The Promised Land' as familiar tales, respectfully handled and well told. Those whose acquaintance is less intimate may find that reading this book to their children will be a good excuse for

indulging themselves in a type of literature they would otherwise hate to confess enjoying."
+ N Y Times p8 Ja 13 '29 530w

"Has he added anything really vital to a tale that is matchless in its original form? It would have been better if he had confined himself to commentary, of which he incidentally gives us a good deal. The attempt to rewrite the actual story is an attempt to refine pure gold."

"Sir Gilbert Parker adds nothing which was not already in the Old Testament: his amplifications dilute rather than fortify. Though the author has imagined things about Bathsheba, Leah, Michal, and other women which are quite warranted by the silence of the Bible, we cannot consider that he has added one tittle to the characters of Saul, Samuel, David, or Jonathan."

Altho ostensibly only a catalog of the naval prints in the MacPherson collection, the book contains much material for anyone interested in ships. There are sixteen illustrations in color and 170 in black and white. The text gives history, dimensions and anecdotes of each ship, and is arranged alphabetically by the names of ships.

"Many of the prints are themselves very beautifully reproduced and there is an interesting introduction by Mr. Macpherson on steamship print collecting. But the book is of interest to people who never mean to buy a print of a steamship in their lives, for the catalogue gives lengthy and well written 'biographies' of all the ships illustrated in the prints, and these biographies make delightful reading. They give one a sense of the romantic era of the early steamships and of the tremendous enterprise and adventure of the individuals and companies who designed and built these early steamers."

"The minstrel show in the old sense is gone. And this fact gives all the more worth and interest to the record of it that 'Gentlemen, Be Seated' affords us. This book is from the hands of Dailey Paskman, whose name in the minstrel field is well known, and Sigmund Spaeth, the authority on popular songs, who graces those tuneful treasuries. 'Read 'Em and Weep' and 'Weep Some More, My Lady.' 'Gentlemen, Be Seated' is a mine whose contents must speak for themselves. An account of what it contains is the best comment on a book of such delightful knowledge." Stark Young
